

Contents

1 Predictive Path Following Control Without Terminal Constraints	1
T. Faulwasser, M. Mehrez, and K. Worthmann	
2 Dissipativity in Economic Model Predictive Control: Beyond Steady-State Optimality	27
M. A. Müller	
3 Primal or Dual Terminal Constraints in Economic MPC? Comparison and Insights	45
T. Faulwasser and M. Zanon	
4 Multi-level Iterations for Economic Nonlinear Model Predictive Control	65
A. Nurkanović, S. Albrecht, and M. Diehl	
5 On Closed-Loop Dynamics of ADMM-Based MPC	107
Moritz Schulze Darup and Gerrit Book	
6 Distributed Optimization and Control with ALADIN	135
B. Houska and Y. Jiang	
7 Model Predictive Control for the Internet of Things	165
B. Karg and S. Lucia	
8 Hybrid Gaussian Process Modeling Applied to Economic Stochastic Model Predictive Control of Batch Processes	191
E. Bradford, L. Imsland, M. Reble, and E. A. del Rio-Chanona	
9 Collision Avoidance for Mobile Robots Based on an Occupancy Grid	219
Tobias Sprodowski
