

Contents

1	Introduction	1
1.1	The Weak Normal Covering Number and the Normal Covering Number of the Finite Non-abelian Simple Groups	3
1.2	The Normal 2-Coverings of the Almost Simple Groups and the Weak Normal Covering Number of the Almost Simple Groups	8
1.3	The Invariably Generating Graph and the Aut-invariably Generating Graph	10
1.4	The Erdős–Ko–Rado Theorem and the Derangement Graph	13
1.5	Further on Derangements: The Boston-Shalev Conjecture.....	16
1.6	Normal 2-Coverings for Arbitrary Finite Groups	17
1.7	Normal Coverings and Kronecker Classes	20
1.8	Structure of the Book and Comments	22
2	Preliminaries	27
2.1	Classical Groups	27
2.2	Normal and Weak Normal Coverings of Classical and Simple Classical Groups	28
2.3	From Weak Normal Coverings to Normal Coverings	29
2.4	Action of \hat{G} on Its Natural Module	30
2.5	Huppert’s Theorem and Singer Cycles	31
2.6	Some Arithmetics	33
2.7	Primitive Prime Divisors	35
2.8	Further Facts on Singer Cycles	36
2.9	The <i>ppd</i> -Elements	38
2.10	Bertrand Elements	40
2.11	The Spinor Norm and the Bertrand Elements	41
3	Linear Groups	45

4	Unitary Groups	51
4.1	Small Dimensional Unitary Groups	52
4.2	Large Dimensional Unitary Groups	61
5	Symplectic Groups	65
5.1	Small Dimensional Symplectic Groups	65
5.2	Large Dimensional Symplectic Groups	80
6	Odd Dimensional Orthogonal Groups	87
6.1	Small Odd Dimensional Orthogonal Groups	88
6.2	Large Odd Dimensional Orthogonal Groups	90
6.3	An Auxiliary Result	96
7	Orthogonal Groups with Witt Defect 1	101
7.1	Small Even Dimensional Orthogonal Groups of Witt Defect 1	103
7.2	Large Even Dimensional Orthogonal Groups of Witt Defect 1	107
8	Orthogonal Groups with Witt Defect 0	113
8.1	Orthogonal Groups of Witt Defect 0 of Dimension at Least 10	114
8.2	Eight Dimensional Orthogonal Groups with Witt Defect 0	118
9	Proofs of the Main Theorems	125
10	Almost Simple Groups Having Socle a Sporadic Simple Group	129
11	Dropping the Maximality	135
11.1	Linear Groups: Cases (3)–(7)	141
11.2	Unitary Groups: Cases (8) and (9)	148
11.3	Exceptional Groups: Case (2)	151
11.4	Exceptional Groups: Case (1)	152
11.5	Symplectic Groups: Cases (10) and (11)	153
11.6	Proof of Theorem 2 of Burness and Tong-Viet	158
12	Degenerate Normal 2-Coverings	161
12.1	The Degenerate Normal 2-Coverings of the First Type	161
12.2	The Degenerate Normal 2-Coverings of the Second Type	162
