

Contents

Chapter 1. Introduction	1
Chapter 2. Sobolev and Besov Spaces on Lipschitz Domains	17
2.1. The class of Lipschitz domains	17
2.2. Fractional Sobolev, Besov, and Triebel–Lizorkin spaces in arbitrary open sets	23
2.3. Fractional Sobolev and Besov spaces in Lipschitz domains	27
2.4. Fractional Sobolev spaces on the boundaries of Lipschitz domains	40
2.5. Sobolev regularity in terms of the nontangential maximal function	41
Chapter 3. A Sharp Dirichlet Trace Involving Sobolev and Besov Spaces	43
3.1. A first look at the Dirichlet trace	43
3.2. A sharp Dirichlet trace involving Sobolev spaces	47
3.3. A sharp Dirichlet trace involving Besov spaces	56
Chapter 4. Divergence theorems with Sobolev traces	63
Chapter 5. A sharp Neumann trace involving Sobolev spaces	71
Chapter 6. Schrödinger operators on open sets and bounded Lipschitz domains	95
Chapter 7. Weyl–Titchmarsh operators for Schrödinger operators on bounded Lipschitz domains	105
Chapter 8. Maximal extensions of the Dirichlet and Neumann trace on bounded Lipschitz domains	115
Chapter 9. The Krein–von Neumann extension on bounded Lipschitz domains	133
Chapter 10. A description of all self-adjoint extensions and Krein-type resolvent formulas for Schrödinger operators on bounded Lipschitz domains	143
Chapter 11. The case of variable coefficient operators	153
11.1. Sobolev spaces on Lipschitz subdomains of a Riemannian manifold	156
11.2. Sharp Dirichlet and Neumann traces on Lipschitz subdomains of Riemannian manifolds	167
11.3. Schrödinger operators on Lipschitz subdomains of a Riemannian manifold	181
11.4. Variable coefficient elliptic operators in Euclidean Lipschitz domains	190
