

CONTENTS

	Introduction	1
18.1	Where Differential Equations Come From	2
18.2	Euler's Numerical Method	11
18.3	Separable Equations	21
18.4	Series with Complex Terms	33
18.5	Introduction to the Spring	53
18.6	The Homogeneous Equation and the Spring	67
18.7	The Nonhomogeneous Case	83
18.8	Why Bridges Collapse	93
18.9	Variation of Parameters	101
18.10	Power Series Solutions	107
