

## CONTENTS

Acknowledgments .....	ix
Preface .....	xiii
<b>1 Introduction .....</b>	<b>1</b>
1.1 Aristotelian Competence Grammars .....	2
1.1.1 Against ACG: Ambiguity .....	5
1.1.2 Against ACG: Time Complexity .....	8
1.1.3 Against ACG: The Gap between Production and Interpretation .....	9
1.2 Production Grammar .....	11
1.2.1 The Primacy of Production .....	12
1.3 Strategies for Coordination .....	17
1.4 Bayesian Interpretation .....	19
1.4.1 Simulated Production in Interpretation .....	24
1.4.2 Mirror Neurons .....	26
1.5 Conclusion .....	27
1.6 The Other Chapters .....	32
<b>2 Syntax .....</b>	<b>37</b>
2.1 Optimality Theory .....	39
2.1.1 Reversing Production .....	42
2.2 Optimality-Theoretic Syntax .....	45
2.2.1 Optimality-Theoretic Syntax for Word Order in Dutch ..	45
2.2.2 Provisional German .....	51
2.2.3 Provisional English .....	52
2.3 The Production Algorithm .....	55
2.3.1 Procedural Interpretation of the Constraints .....	57
2.4 Higher Level Generation .....	61
2.5 Other Issues .....	64
2.5.1 More Dutch .....	64
2.5.2 A Worked Example .....	66
2.5.3 Incremental Syntax Checking in Interpretation .....	67
2.5.4 Quantification .....	69
2.6 Conclusion .....	71

3	Self-Monitoring.....	75
	3.1 Optional Discourse Markers .....	77
	3.1.1 General Self-Monitoring .....	80
	3.2 Word Order Freezing.....	85
	3.3 Pronouns and Ellipsis .....	90
	3.4 Differential Case Marking .....	93
	3.5 A Case for Phonological Self-Monitoring?.....	96
	3.6 Conclusion .....	100
4	Interpretation .....	105
	4.1 The Interpretation Algorithm .....	109
	4.2 Vision and Pragmatics .....	120
	4.2.1 Vision .....	120
	4.2.2 Other Cues .....	121
	4.2.3 Pragmatics .....	123
	4.2.4 Clark Buys Some Nails .....	131
	4.2.5 Scalar Implicatures .....	133
	4.2.6 Relevance Implicatures .....	134
	4.3 Conclusion .....	135
5	Mental Representation .....	141
	5.1 From Links to Representation Structures .....	142
	5.2 Logic .....	148
	5.2.1 Logical Operators .....	149
	5.3 Mental Representations in Philosophy .....	152
	5.4 Belief .....	158
	5.5 Definiteness .....	165
	5.6 Comparison with Discourse Semantics .....	177
	5.6.1 From Contexts into Discourse Representation Theory... ..	180
	5.7 Conclusion .....	182
6	Final Remarks .....	185
	6.1 Rounding Off.....	185
	6.2 Computational Linguistics .....	186
	6.3 Pragmatics .....	193
	6.4 Semantic Compositionality .....	196
	6.5 LFG 3.0 and ProT 2.0 .....	197
	6.6 Language Evolution .....	202
	6.7 Conceptual Glue .....	204
