PART I General Principles and Issues 1

1 The Nature of Emotion 2

What Is Emotion? 3

Research Methods: Inducing Emotion 6

Research Methods: Measuring Emotion 7

Self-Reports 8

Physiological Measurements 9

Behavioral Observations 12

Theories of Emotion 13

The James-Lange Theory 13

The Cannon-Bard Theory 14

The Schachter-Singer Theory 15

Relationships Among Cognition, Feeling, Physiology,
and Behavior 17

The Speed of Emotional Appraisals 17

Are Body Sensations Necessary for Emotional Feeling? 19

Are Emotional Behaviors Necessary for Emotional Feeling?

Do They Determine Emotional Feelings? 20

Overall Evaluation of the James-Lange Theory 25

Classification of Emotions 25
