

CONTENTS

Editor's Introduction 5

Author's Introduction 7

I. Canonical Correlational Analysis 11

The Basic Canonical Correlation Model 12

Interpretation of Canonical Variates 18

Tests of Significance and Redundancy Analysis 20

Some Illustrative Analyses 27

Some Additional Topics 34

II. Factor Comparison Techniques 37

Target Analysis 37

Factor Matrix Comparisons 42

Factor Loading Matrices 44

Analyzing Change Data 53

Concluding Remarks 55

Notes 55
