

TABLE OF CONTENTS

INTRODUCTION	1
CHAPTER 1 LOGIC	
1.1 Sets	1
1.2 Universal Sets and Complements	5
1.3 Sentences and Statements	8
1.4 Sentence Connectives	11
1.5 Biconditionals and Combinations of Connectives	16
1.6 Quantifiers	19
1.7 Truth Values of More Complicated Quantified Sentences . .	24
1.8 Reasoning Sentences	28
1.9 Valid Arguments	30
1.10 Contrapositives	33
1.11 Negations	34
CHAPTER 2 PROOF	
2.1 Mathematical Systems	39
2.2 Proof	42
2.3 Proving Sentences of the Type $P \rightarrow Q$	44
2.4 Proving Sentences of the Type $P \leftrightarrow Q$	47
2.5 Proving Sentences of the Type $\forall x P(x)$	50
2.6 Proof by Cases	52
2.7 Mathematical Induction	55
2.8 Proof by Contradiction	65
2.9 Proofs of Existence and Uniqueness	71
2.10 Proof Creativity	73

TABLE OF CONTENTS

CHAPTER 3 SETS

3.1 Basic Set Properties	79
3.2 More Set Properties	86
3.3 Relations	92
3.4 Equivalence Relations	99
3.5 Partitions	104
3.6 Functions	108
APPENDIX -- The Real Number System	113
ANSWERS TO SELECTED EXERCISES	115
INDEX	129
