Preface Gerhard Engels, Germany	5
Opening Address Sorabiji H. Commissariat, India	6
Introduction and Conception Gerhard Engels, Germany	7
Optimization of Casting Design: A Captive Casting Producer's Perspective George Booth, USA	10
Principle Considerations for Determining the Feasibility of Castings for Production and Service Charles E. Fausel, USA	23
Simultaneous Engineering - How to Handle in Practice Klaus Hornung, Switzerland	32
CAD and the Dialogue Between Foundries, Designers and Patternmakers Kevin Selby, England	35
Optimization of Cast Components in Machine Tool Building Jochen Asbeck, Germany	43
The Foundrymen's Chances to Excel Peter R. Sahn, Germany	53
Optimization of Casting Design with Regard to Production Methods Preben N. Hansen, Denmark	64
The Design of Cast Exhaust Components by Means of Urethane Model Aided Thermal and Stress Analysis Kenji Itoh, Japan	69
Optimization and Calculations by CAD Examples of Automotive Castings Jean-Francois Vittori, France	82
Panel Speakers	94
