INTRODUCTION . . . . .	xix

### CHAPTER I

#### THE EVOLUTION OF LIFE—MECHANISM AND TELEOLOGY

Of duration in general—Unorganized bodies and abstract time —Organized bodies and real duration—Individuality and the process of growing old . . . . .	5
Of transformism and the different ways of interpreting it—Radi- cal mechanism and real duration: the relation of biology to physics and chemistry—Radical finalism and real duration: the relation of biology to philosophy . . . . .	7
The quest of a criterion—Examination of the various theories with regard to a particular example—Darwin and insensible variation—De Vries and sudden variation—Eimer and or- thogenesis—Neo-Lamarckism and the hereditability of acquired characters . . . . .	62
Result of the inquiry—The <i>vital impetus</i> . . . . .	94

### CHAPTER II

#### THE DIVERGENT DIRECTIONS OF THE EVOLUTION OF LIFE—TORPOR, INTELLIGENCE, INSTINCT

General idea of the evolutionary process—Growth—Divergent and complementary tendencies—The meaning of progress and of adaptation . . . . .	109
The relation of the animal to the plant—General tendency of animal life—The development of animal life . . . . .	117
The main directions of the evolution of life: torpor, intelligence, instinct . . . . .	149
The nature of the intellect . . . . .	167
The nature of instinct . . . . .	182
Life and consciousness—The apparent place of man in nature . . . . .	194

## CHAPTER III

ON THE MEANING OF LIFE—THE ORDER OF NATURE  
AND THE FORM OF INTELLIGENCE

	PAGE
Relation of the problem of life to the problem of knowledge— The method of philosophy—Apparent vicious circle of the method proposed—Real vicious circle of the opposite method	204
Simultaneous genesis of matter and intelligence—Geometry in- herent in matter—Geometrical tendency of the intellect— Geometry and deduction—Geometry and induction—Phys- ical laws . . . . .	218
Sketch of a theory of knowledge based on the analysis of the idea of Disorder—Two opposed forms of order: the problem of <i>genera</i> and the problem of <i>laws</i> —The idea of "disorder" an oscillation of the intellect between the two kinds of order	240
Creation and evolution—Ideal genesis of matter—The origin and function of life—The essential and the accidental in the vital process and in the evolutionary movement—Mankind—The life of the body and the life of the spirit . . . . .	258

## CHAPTER IV

THE CINEMATOGRAPHICAL MECHANISM OF THOUGHT AND THE  
MECHANISTIC ILLUSION—A GLANCE AT THE HISTORY OF  
SYSTEMS—REAL BECOMING AND FALSE EVOLUTIONISM

Sketch of a criticism of philosophical systems, based on the anal- ysis of the idea of Immutability and of the idea of "Noth- ing"—Relation of metaphysical problems to the idea of "Nothing"—Real meaning of this idea . . . . .	296
Form and Becoming . . . . .	324
The philosophy of Forms and its conception of Becoming—Plato and Aristotle—The natural trend of the intellect . . . . .	330
Becoming in modern science: two views of Time . . . . .	357
The metaphysical interpretation of modern science: Descartes, Spinoza, Leibniz . . . . .	374
The Criticism of Kant . . . . .	387
The evolutionism of Spencer . . . . .	395
INDEX . . . . .	403
