***Introduction* 1**

How to Use This Book.....	1
Conventions Used in This Book.....	2
What You Don't Have to Read.....	2
Foolish Assumptions.....	3
How This Book Is Organized	4
Book I: Getting Started with Android Application Development	4
Book II: Android Background Material.....	4
Book III: The Building Blocks.....	4
Book IV: Programming Cool Phone Features	4
Book V: Apps for Tablets, Watches, and TV Sets	5
Book VI: The Job Isn't Done Until	5
More on the Web!	6
Icons Used in This Book	6
Beyond the Book	7
Where to Go from Here.....	7

***Book I: Getting Started with Android Application Development* 9**

Chapter 1: All about Android 11

The Consumer Perspective	11
The Developer Perspective	15
Java.....	15
XML.....	16
Linux.....	18
The Business Perspective	20

Chapter 2: Installing the Software Tools 21

Installing Oracle's Java Development Kit	21
Adding Apple's Java to the Stew.....	27
The Many Faces of Java (for Inquiring Readers Only).....	28
Setting Up the Software	31
Downloading the software.....	32
Installing the software.....	33
Launching the Android Studio IDE.....	35
In Windows	35
On a Mac	35
In Linux.....	35

Fattening Up the Android SDK.....	36
The more things stay the same, the more they change.....	36
Installing new versions (and older versions) of Android	37
Creating an Android virtual device	39
A third-party emulator	43
Chapter 3: Creating an Android App	45
Creating Your First App.....	46
Starting the IDE and creating your first app.....	47
Launching your first app.....	51
Running Your App	53
You Can Download All the Code.....	56
What If	58
Error message: Cannot resolve symbol 'R'.....	58
Error message: Failed to find target	58
Error message: Android Virtual Device may be incompatible with your configuration.....	59
You lose contact with the Android debug bridge (adb).....	59
You don't like whatever AVD opens automatically	60
The emulator stalls during startup.....	60
Error message: The user data image is used by another emulator	61
Error message: Unknown virtual device name	63
Error message: INSTALL_PARSE_FAILED_INCONSISTENT_ CERTIFICATE.....	63
The emulator displays a "process isn't responding" dialog box...	64
Changes to your app don't appear in the emulator	64
The emulator's screen is too big	64
Testing Apps on a Real Device.....	66
Chapter 4: Examining a Basic Android App	69
A Project's Files	69
The MainActivity.java file	72
The res branch.....	75
Other files in an Android project	82
What Did I Agree To?.....	90
What's in a name?	91
Your app's API levels.....	92
Chapter 5: Conjuring and Embellishing an Android App.....	97
Dragging, Dropping, and Otherwise Tweaking an App.....	97
Creating the "look"	98
Coding the behavior	103

A Bit of Debugging	112
Try it!	112
More than one way to skin a Logcat.....	115

Chapter 6: Improving Your App123

Improving the Layout.....	123
Creating a reusable layout.....	126
Reusing a layout.....	128
Starting Another Activity.....	130
Localizing Your App	135
Responding to Check Box Events.....	139
Displaying Images.....	141
Sending in Your Order	145

Book 11: Android Background Material 149

Chapter 1: Using Android Studio151

Don't Read This Chapter	152
The Big Picture	152
The main window.....	154
Viewing modes	160
The Designer tool.....	163
The Things You Can Do	164
Finding things.....	165
Fixing code.....	169
Refactoring.....	177

Chapter 2: It's Java!181

From Development to Execution with Java.....	181
What is a compiler?	182
What is a virtual machine?	185
Grasping Java Code.....	188
The Java class	189
Classes and objects	190
Java types	191
The Java method.....	194
Objects and their constructors.....	198
Classes grow on trees.....	201
The Java package.....	203
A public class	204
Other public things.....	205
Defying your parent.....	206
Java annotations	207
Java comments.....	207

Chapter 3: What Java Does (and When)	211
Making Decisions (Java if Statements)	211
Testing for equality.....	215
Choosing among many alternatives (Java switch statements)....	217
Repeating Instructions Over and Over Again	219
Java while statements	220
Java for statements.....	221
Java do statements	223
Arrays in Java	224
Java's enhanced for statements.....	225
Jumping Away from Trouble.....	226
Chapter 4: Object-Oriented Programming in Java	229
Static Fields and Methods	229
Interfaces and Callbacks.....	232
Event handling and callbacks.....	235
An object remembers who created it.....	237
A less wordy way to implement an interface	238
Classes That Must (and Must Not) Be Extended.....	240
Java's final classes	240
Java's abstract classes	241
Inner Classes	242
Named inner classes.....	242
Anonymous inner classes	243
Gathering Your Files.....	244
Chapter 5: A <brief> Look at XML	247
XML Isn't Ordinary Text	248
Of tags and elements	249
Other things you find in an XML document	255
What's in a Namespace?	257
The package attribute	260
The style attribute	260

Book III: The Building Blocks

263

Chapter 1: Android Activities	265
All about Activities	266
State your intention.....	271
The explicit intent.....	273
Using a context.....	274
The Activity Lifecycle	277
Lifecycle methods.....	277
Taking an activity lifecycle through its paces.....	283

Getting Results Back from an Activity	296
Applications Don't Feel Left Out.....	298
Chapter 2: Intents and Intent Filters	303
How to Make a Match.....	303
The parts of an intent.....	305
The parts of an intent filter.....	309
Matching: The general idea using a (silly) analogy.....	310
The real story.....	311
Practice, Practice, Practice	327
Activities and Stacks	330
Fly the flag.....	334
Keeping an eye on activities and tasks	339
Chapter 3: Services	343
A Very Simple Service	343
The service	343
A client activity	345
Services start, stop, and start again	348
Running a Service at Boot Time.....	349
Testing the boot-time service	351
Starting and Binding.....	352
Talking about the Weather	354
A service.....	354
A client	356
Informing the user	360
Binding to the service	361
Querying the service	362
Using shared preferences to restart a connection.....	362
Getting Real Weather Data	364
Dealing with JSON.....	367
Dealing with XML.....	372
Talking to a Service as if You're Right Next Door	377
Using AIDL.....	377
Chapter 4: Broadcast Receivers	383
Receivers 101	383
Creating a receiver on the fly	385
Juggling receivers and broadcasts	386
How to unregister a receiver.....	387
Beyond the Fundamentals.....	391
Managing receivers.....	391
How to be a stickler	394
Using receiver intents	396
Ordered broadcasts	399

Stopping a broadcast in its tracks	400
Getting results from receivers	401
Using permissions and other tricks.....	405
Standard Broadcasts	407
Chapter 5: Content Providers	411
Databases: From the Stone Age to the Present Day.....	411
Working with a Database.....	413
Coding for SQLite using Android's SDK	415
Details about the friendly helper class	418
Details about the mainstream SQLite code	420
Creating and Using a Content Provider	424
Using a content resolver	428
Using a cursor loader	430
At last! A content provider!.....	432
Book IV: Programming Cool Phone Features.....	435
Chapter 1: Laying Out Your Stuff	437
Android Layouts	437
Linear Layout	438
Attributes (A Detour).....	440
android:layout_width and android:layout_height.....	440
android:padding and android:margin	446
android:gravity and android:layout_gravity	447
android:color	451
android:visibility	453
Using Configuration Qualifiers (Another Detour)	454
Specifying exact dpi values	455
Specifying screen orientation.....	456
Some other configuration qualifiers	457
Relative Layout	459
Table Layout	461
Grid Layout.....	463
Frame Layout	465
Using a ScrollView	468
Defining a Layout in Java Code	470
Sometimes, you need both (XML and Java code)	473
Chapter 2: Menus, Lists, and Notifications	475
All about Menus	475
Creating an Options Menu.....	477
Defining the XML file.....	479
Handling user actions.....	481
Creating a reminder.....	482

Putting the new reminder in a list	484
Doing more on the action bar	486
Creating a Context Menu	487
Describing the menu	487
Floating context menus.....	488
Contextual action mode.....	489
More Stuff about Lists.....	492
Creating a list activity	492
A client for the list activity	494
Displaying two (or more) values in a list item	496
Creating a Pop-Up Menu	500
Notifying the User.....	501
Simple notification.....	502
A not-so-simple notification.....	504
Chapter 3: An Android Potpourri	509
Making Phone Calls	509
Two ways to initiate a call	510
Oops! No phone.....	514
On being a dialer.....	516
Keep an eye on the phone	517
Sending a Text Message.....	519
Working with Device Sensors	520
Quantifying location and orientation	521
Sending location and orientation.....	523
Drawing, Dragging, and Zooming.....	528
The big picture.....	528
The details	532
On the Importance of Waiting Patiently	534
Creating an AsyncTask.....	535
Using a progress bar.....	537
Using an AsyncTask.....	539
Chapter 4: An Android Social Media App	541
The Twitter App's Files.....	542
The Twitter4J API jar file.....	542
The manifest file.....	544
The main activity's layout file	544
How to Talk to the Twitter Server	547
Using OAuth.....	548
Making a ConfigurationBuilder	548
Getting OAuth codes	550
The Application's Main Activity	552
The onCreate method	556
The button listener methods.....	558
My Twitter app's AsyncTask classes	558

Chapter 5: Hungry Burds: A Simple Android Game563

- Introducing the Hungry Burds Game 563
- The Project's Files 567
- The Main Activity 568
 - The code, all the code, and nothing but the code..... 571
 - Random 574
 - Measuring the display 574
 - Constructing a Burd 576
 - Android animation..... 577
 - Shared preferences..... 579

Chapter 6: Going Native581

- The Native Development Kit 582
 - Getting the NDK 582
- Creating an Application 584

Book V: Apps for Tablets, Watches, and TV Sets..... 597

Chapter 1: Apps for Tablets599

- What Fragments Can Do for You 600
 - Programming with fragments..... 601
 - Fragments, more fragments,
and even more fragments 607
- Getting the Best of Both Worlds 612
 - Change 1: Create an additional activity 614
 - Change 2: Tweak the DocsFragment code..... 617
 - Change 3: Tweak the app's main activity 619
 - Change 4: Create an additional layout 619

Chapter 2: Developing for Android Wear.623

- Setting Up Your Testing Environment 623
 - Other testing configurations 624
 - A "Hello" example 626
- Wearable Apps: What's the Big Deal? 629
- Case Study: A Watch Face 630
 - Dissecting the skeletal watch face project 633
 - Enhancing the skeletal watch face project..... 637

Chapter 3: Developing for Android TV641

- Getting Started 642
- Running the Skeletal App..... 643
- Creating a TV App 646
 - The Adapter and the Presenter..... 649
 - Using the Adapter class 650
 - Using the Presenter class 652

Book VI: The Job Isn't Done Until 655

Chapter 1: Publishing Your App to the Google Play Store 657

Creating a Google Play Developer Account	657
Preparing Your Code.....	658
Un-testing the app.....	659
Choosing Android versions	659
Setting your app's own version code and version name.....	660
Choosing a package name	661
Preparing Graphic Assets for the Play Store	661
Creating an icon	661
Creating screenshots.....	662
Creating a feature graphic and a promo video	663
Creating a Publishable APK File.....	664
More Testing	673
Publishing Your App	673
Publishing Elsewhere.....	677
The Amazon Appstore.....	677
Other venues	680

Chapter 2: Monetizing and Marketing Your App 683

Choosing a Revenue Model	683
Charging for your app	684
Offering an extended free trial	687
Freemium apps.....	688
Selling things with your app.....	691
Subscription pricing	693
Earning revenue from advertising	694
Variations on in-app advertising.....	696
Donationware	697
Offering your app for free	697
Getting paid to develop apps for others.....	697
Marketing Your Application.....	697
Brick Breaker Master: An app marketing case study.....	699
