

Contents

1	Introduction	1
1.1	Motivation	1
1.1.1	An Example Scenario	8
1.1.2	Problem Statement and Solution Requirements	12
1.2	Proposed Solution Overview	14
1.3	Publication Overview	17
1.4	Thesis Structure	19
2	Related Work	21
2.1	Service-oriented Computing (SOC)	21
2.2	Automatic Service Discovery and Composition	23
2.3	Service Description	24
2.3.1	Classification of a Service Description Language	25
	Comprehensiveness Level	25
	Ease-of-Use	28
	Request/Offer Distinction	29
2.3.2	Overview of Service Description Languages	30
2.3.3	Evaluation	34
2.4	Service Description Matching	36
2.4.1	Dimensions of Service Description Matching	37
	Matched Elements	37
	Heterogeneity Resolution	38
	Matching Strategy	40
	Service Description Abstraction Level	41
	Service Structure	42
2.4.2	Overview of the Service Description Matching Approaches	42
2.4.3	Evaluation	48
2.5	Summary and Discussion	52
3	Rich Service Description Language (RSDL)	53
3.1	Requirements for a Comprehensive Service Description Language	53
3.2	Rich Service Description Language	54
3.2.1	Structure of the RSDL	55
3.2.2	Syntax of RSDL	55
	Data Model	57
	Operation Signatures	59

CONTENTS

Operation Behavioral Semantics	60
Requester Protocol	62
Provider Protocol	64
3.2.3 RSDL Service Descriptions for the running Example .	66
3.3 Summary and Discussion	70
4 Semantics of RSDL	71
4.1 Semantics for the RSDL Data Model and Operation Signatures	71
4.2 Semantics of RSDL Operation Behavioral Semantics	75
4.3 Semantics of RSDL Service Protocol	79
4.3.1 Dynamic Meta Modeling (DMM)	79
4.3.2 DMM for Requested Service Protocol	79
4.3.3 DMM for Offered Service Protocol	82
4.4 Summary and Discussion	83
5 Service Description Normalization through Data Model Matching	85
5.1 Service Description Normalization Overview	85
5.2 Data Model Matching - Foundations	88
5.2.1 Local-global Matching Approach	88
5.2.2 Global Ontology and its conforming global Data Model	89
5.3 Data Model Matching Algorithm	94
5.3.1 Attribute Annotation	94
5.3.2 Similarity Value Calculation for Attribute Pairs	96
5.3.3 Attribute Mappings Determination	98
5.3.4 Class Annotation	99
5.3.5 Similarity Value Calculation for Class Pairs	99
5.3.6 Class Mappings Determination	100
5.4 Visual Contracts Normalization	101
5.5 Summary and Discussion	104
6 Multi-level Service Discovery	107
6.1 Service Discovery Overview	107
6.2 Category Matching	110
6.3 Operation Matching	111
6.3.1 1 : 1 Operation Matching	116
Definition for 1 : 1 Operation Correspondence	116
1 : 1 Operation Matching Algorithm	119
6.3.2 n : 1 Operation Matching	122
Different Scenarios for a n : 1 Operation Correspondence	123

Definition for $n : 1$ Operation Correspondence	127
$n : 1$ Operation Matching Algorithm	129
6.3.3 $1 : n$ Operation Matching	132
Different Scenarios for a $1 : n$ Operation Correspondence	133
Definition for $1 : n$ Operation Correspondence	140
$1 : n$ Operation Matching Algorithm	142
6.3.4 $n : m$ Operation Matching	154
Different Scenarios for a $n : m$ Operation Correspondence	154
6.3.5 Operation Mapping Generation	161
6.4 Summary and Discussion	166
7 Service Composition	169
7.1 Service Composition Overview	170
7.1.1 Protocol Matching - State of the Art	171
7.1.2 Our Approach	173
7.2 Protocol Translation to LTS	174
7.3 LTS Composition	178
7.3.1 Operation Mapping-based LTS Composition	178
7.3.2 LTS Composition Algorithm	182
7.4 Determination and further Examination of valid Service Compositions	187
7.4.1 Successful Service Composition Phase	187
7.4.2 Failed Service Composition Phase	191
7.5 Discussion	192
7.6 Summary	195
8 Tool Support	197
8.1 Requirements for the Workbench	197
8.2 Workbench Architecture	199
8.3 Workbench Implementation	200
8.3.1 Tools and Technologies	201
Eclipse	201
Eclipse Modeling Framework (EMF)	201
Papyrus	202
Henshin	202
EMF Compare	202
Query-View-Transformation Relations(QVTr)	203
8.3.2 Implemented Features	203
8.3.3 Specify Service Description	203

CONTENTS

8.3.4	Normalize Service Description	206
8.3.5	Publish Service Offer	208
8.3.6	Perform Service Discovery and Composition	209
8.3.7	Manage Global Ontology	212
8.3.8	Manage Service Registry	212
8.4	Evaluation	212
8.5	Summary and Discussion	216
9	Conclusion and Future Work	217
9.1	Summary and Contributions Overview	217
9.2	Outlook on Future Work	220
9.3	Final Remarks	223
	Bibliography	225
