Preface	<i>page</i> vii
Acknowledgements	viii
Contributors	ix
Introduction	1
<i>L.G. Brookes and H. Motamen</i>	
THE ROLE OF NUCLEAR POWER IN ENERGY SYSTEMS	29
1. The role of centralized energy in national energy systems	30
<i>C. Starr and O. Yu</i>	
2. Economic principles of optimizing mixed nuclear and non-nuclear electricity systems	46
<i>L. Gouni</i>	
3. Nuclear and non-nuclear electricity: decision-making for optimal economic performance	67
<i>T.W. Berrie</i>	
NUCLEAR ENERGY AND THE POWER PLANT INDUSTRY	87
4. Manufacturing industry and nuclear power	88
<i>P.C. Warner</i>	
URANIUM PRODUCTION AND DISTRIBUTION	115
5. Prospects and concepts	116
<i>R. Williams</i>	
6. The balance of supply and demand	145
<i>T. Price</i>	
NUCLEAR FUEL CYCLE SERVICES	161
7. The structure and economics of the nuclear fuel cycle service industry	162
<i>A.J. Hyett</i>	

THE ECONOMICS OF ADVANCED CONVERTERS AND BREEDERS	191
8. Assessing the economics of the liquid metal fast breeder reactor <i>A.A. Farmer</i>	192
9. The case for developing the liquid metal fast breeder reactor in France <i>J. Baumier and L. Duchatelle</i>	234
10. The economics of the CANDU reactor <i>L.G. McConnell and L.W. Woodhead</i>	255
NUCLEAR POWER IN OPERATION	273
11. The comparative costs of nuclear and fossil fuelled power plants in an American electricity utility <i>G.R. Corey</i>	274
12. The comparative costs of nuclear and coal-fired power stations in West Germany <i>D. Schmitt and H. Junk</i>	288
13. The economics of final decommissioning and disposal of nuclear power plant <i>W.H. Lunning</i>	303
NUCLEAR POWER AND ELECTRICITY TARIFFS	315
14. The implications of nuclear energy for electricity tariffs <i>J.M.W. Rhys</i>	316
NUCLEAR POWER IN LESS-DEVELOPED COUNTRIES	333
15. The practical problems and issues pertaining to nuclear energy in less-developed countries <i>L. Kemeny</i>	334
THE MACROECONOMIC ROLE OF NUCLEAR ENERGY	361
16. Energy, economic growth and human welfare <i>S.H. Schurr</i>	362
17. Nuclear energy as an instrument of economic policy <i>L. Thiriet</i>	371
18. Long-term equilibrium effects of constraints in energy supply <i>L.G. Brookes</i>	381
CONCLUSIONS <i>L.G. Brookes and H. Motamen</i>	403
Index	409
