
CONTENTS

PART I	THE DEVELOPMENTAL APPROACH	1
1	A Developmental View of Exceptional Children	3
	<i>Exceptional Children and Special Education: A Beginning Definition • A Rationale for the Developmental View • The Categorical View • The Developmental View • The Domains of Development</i>	
2	The Emergence of Special Education as a Discipline	29
	<i>Traditional Categories of Exceptionality • Mental Retardation • Learning Disabilities • Emotional Disturbance • The Field of Special Education • Special Education Versus Regular Education: A Brief History • Labeling and Placement • Mainstreaming</i>	
3	Theories of Developmental Deviance	63
	<i>Cognitive-Developmental Theories • The Developmental Theory of Jean Piaget • Behavior Analysis Theories • B. F. Skinner and Behavior Analysis • Psychodynamic Theories • Origins of Psychodynamic Approaches</i>	
PART II	THE COGNITIVE DOMAIN	89
4	Cognitive Development: Intelligence	91
	<i>The Nature of Intelligence • Historical Ferment for Concept of Intelligence • The Statistical View of Intelligence</i>	

- 5 Two Developmental Theories of Intelligence 109
Jean Piaget's Developmental Theory of Intelligence • Cognitive Growth • Cognitive Growth through Developmental Interaction • Hebb's Neurophysiological Theory of Intellectual Development • Infant and Early Childhood Brain Development • Hebb's Developmental Theory of Intelligence • Hebb and Developmental Deviance
- 6 Deviations in Intellectual Development 135
Causes of Mental Retardation • Past Definitions of Mental Retardation • The 1973 AAMD Definition of Retardation • Classification Systems for Mental Retardation • Epidemiology of Mental Retardation
- 7 A Developmental View of Mental Retardation 165
Differing Views of Retarded Learning • The Behavioral View • The Social Learning View • The Developmental View • Developmental Delay from a Piagetian Perspective • Can Intellectual Development Be Accelerated? • Programs, Services, and Intervention Strategies • Intervention Alternatives • Intervention Strategies
- 8 Giftedness 197
Definition of Giftedness • Intelligence and Creativity • A Comprehensive Analysis of Giftedness • Giftedness Viewed Developmentally • School Programs for the Gifted • Educational Programs
- 9 Perceptual and Conceptual Development 219
Perception • Interrelatedness of Perceptual, Conceptual, and Memory Development • Perceptual Development in Infancy • Perceptual-Conceptual Integration in Infants • Hebb's Theoretical Account of Perceptual Development • Eleanor Gibson's Theory of Perceptual Development
- 10 A Developmental View of Learning Disabilities 249
Learning Disabilities Viewed Developmentally • Continuum of Degree of Perceptual Impairments • Learning Disabilities and the Domains of Development • Learning Disabilities: A Brief Look Back • Learning Disabilities: Definitions, Classifications, and Prevalence • Prevalence of Learning Disabilities • Intervention Approaches • Early Intervention Approaches

• *More Recent Intervention Approaches* • *Present Intervention Approaches* • *Instructional Technology and Design* • *Delivering Instruction to Children with Learning Disabilities*

PART III THE AFFECTIVE DOMAIN 281

11 Affective Development 283

Theories of Psychological Deviance • *Psychodynamic Theories* • *Behavior Analysis Theories* • *Developmental Theories* • *Ecological Theories*

12 Affective Deviance in Children 315

Definitions • *Classification* • *Moderate and Severe Emotional Disturbance* • *Mild Emotional Disturbance* • *Causes of Mild Emotional Disturbance* • *Prevalence of Mild Emotional Disturbance* • *Intervention Programs for Emotionally Disturbed Children* • *Psychodynamic Intervention* • *Behavioral Interventions* • *Developmental Interventions* • *Ecological Interventions*

PART IV THE PSYCHOMOTOR DOMAIN 357

13 Psychomotor Development 359

Differing Views of Human Development • *Physical Growth and Psychomotor Development* • *Psychomotor Development* • *Perceptual Development* • *Sensory Development* • *Physical Development*

14 Neurological and Perceptual Impairments 395

Deviations in Neurological Development • *Brain Damage and Developmental Disabilities* • *Moderate-Severe Mental Retardation* • *Intervention with Children in the Moderate-Severe Range of Mental Retardation* • *Cerebral Palsy* • *Epilepsy* • *Deviations in Perceptual Development* • *Autism* • *Aphasia* • *Dyslexia (Reading Disability)*

15 Sensory and Physical Impairments 433

Deviations in Sensory Development • *Auditory Impairment* • *Visual Impairment* • *Deviations in Physical Development and Functioning* • *Neuromuscular Impairments* • *Skeletal*

*Impairments • Cardiac and Respiratory Impairments
Other Physical and Health Impairments*
