Contents

Preface vii

Part I: Position Papers and Commentaries

Chapter 1

- The Modularity of Mind, *Jerry Fodor* 3
 Commentary: Modules and Central Databases,
 Scott E. Fahlman 19
 Commentary: Modules and Language Abnormalities,
 David Caplan 23

Chapter 2

- The Symbol Level and the Knowledge Level, *Allen Newell* 31
 Commentary: The Link from Symbols to Knowledge,
 Brian Smith 40
 Commentary: Is There an Autonomous "Knowledge Level"?,
 Daniel Dennett 51

Chapter 3

- Problems in Procedural Semantics, *William A. Woods* 55
 Commentary: How Can a Symbol "Mean" Something?,
 John Haugeland 86
 Commentary: Understanding without Knowing How to Behave,
 Janet Fodor 93

Chapter 4

- Computational Psychology and Interpretation Theory,
Hilary Putnam 101
 Commentary: Does Psychology Need Meanings?,
 Michael R. Lipton 117
 Commentary: Does Psychology Need Exact Semantics?,
 Robert J. Matthews 122

Part II: Workshops

- Session 1: Modularity of Mind 129
 Jerry Fodor's Response 129
 General Discussion of Jerry Fodor's Paper 135

Session 2: The Symbol Level and the Knowledge Level	169
Allen Newell's Response	169
General Discussion of Newell's Paper	175
Session 3: Problems in Procedural Semantics	195
William Woods' Response	195
General Discussion of Woods' Paper	204
Session 4: Computational Psychology and Interpretation Theory	217
Hilary Putnam's Response	217
General Discussion of Putnam's Paper	224
References	255
Author Index	257
Subject Index	260
