# **Engineering of Electromagnetic Fields in High- $T_c$ Superconductors**

Reihe **21**: Elektrotechnik

Nr. **202**

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
<b>2</b>	<b>Investigation of London Theory</b>	<b>15</b>
2.1	London Theory . . . . .	15
2.2	The Two-Fluid Model . . . . .	16
2.3	Surface Resistance given by London Theory . . . . .	18
2.4	Problems of London Theory in Application to HTSs . . . . .	22
2.4.1	The Second London Equation . . . . .	23
2.4.2	The Effective Dielectric Constant . . . . .	24
2.4.3	Conductivity and Surface Resistance of Superconductors . . . . .	25
<b>3</b>	<b>Proposal of a New Two-Fluid Model</b>	<b>37</b>
3.1	The Mathematical-Physical Model . . . . .	38
3.1.1	Basic Equation . . . . .	38
3.1.2	New Macroscopic Model . . . . .	39
3.2	Meißner Effect . . . . .	43
3.3	Electrodynamics of High- $T_c$ Superconductors . . . . .	46
3.4	Surface Resistance . . . . .	48
3.4.1	Conductivity of HTSs . . . . .	48
3.4.2	Surface Resistance . . . . .	54

3.5	Simulating the Nonlinear Microwave Surface Resistance . . . . .	59
3.6	Electromagnetics of HTS . . . . .	63
3.6.1	Conductivity Plane . . . . .	63
3.6.2	The Effective Dielectric Constant of HTS . . . . .	64
3.6.3	High- $T_c$ Superconductors $\neq$ Perfect Conductors . . . . .	68
3.6.4	Electromagnetic Energy . . . . .	72
<b>4</b>	<b>Electrodynamic Structures of HTSs</b>	<b>75</b>
4.1	The Wave Equation in High- $T_c$ Superconducting Materials . . . . .	75
4.2	Investigation of HTS's Structures . . . . .	78
4.2.1	Slab High- $T_c$ Superconducting Waveguide . . . . .	78
4.2.2	The Field of a Single Cylindrical HTS Wire . . . . .	82
4.3	Transition From Normal Conductors to HTSs . . . . .	83
4.4	The Surface Waves . . . . .	86
4.4.1	The Hertzian Vector Potentials . . . . .	86
4.4.2	The Existence of Surface Waves . . . . .	87
4.4.3	Surface Waves on a HTS Surface . . . . .	90
<b>5</b>	<b>Pulse Propagation on HTS CPW</b>	<b>91</b>
5.1	Description Of A Coplanar Stripline . . . . .	93
5.1.1	Modal Dispersion . . . . .	95
5.1.2	Characteristics of the Line . . . . .	97
5.1.3	Dielectric Substrate Effects . . . . .	98
5.1.4	Superconducting Dispersion and Loss . . . . .	99
5.2	Examples of Computer-Simulated Results . . . . .	100
<b>6</b>	<b>Conclusion</b>	<b>103</b>

*CONTENTS*

6.1 Features of This Work . . . . . 103

6.2 Suggestions for Future Studies . . . . . 104

**Bibliography** .....107
