Contents

<i>List of sponsors</i>	ix
<i>Preface and acknowledgements</i>	x
1. Gross substitutes versus marginal substitutes: implications for market definition in the postal sector <i>Timothy J. Brennan and Michael A. Crew</i>	1
2. A business model for USPS <i>Michael A. Crew and R. Richard Geddes</i>	16
3. Is demand for market-dominant products of the United States Postal Service becoming more own-price elastic? <i>A. Thomas Bozzo, Kristen L. Capogrossi, B. Kelly Eakin, John Pickett and Mithuna Srinivasan</i>	28
4. Are US postal price elasticities changing? <i>Margaret M. Cigno, Katalin K. Clendenin and Edward S. Pearsall</i>	46
5. Estimating postal demand elasticities using the PCAIDS method <i>Gregory Swinand and Hugh Hennessy</i>	65
6. Pricing of delivery services in the e-commerce sector <i>Claire Borsenberger, Helmuth Cremer, Philippe De Donder, Denis Joram and Sébastien Lécou</i>	75
7. The regulatory treatment of end-to-end competition in the UK postal sector <i>Richard Eccles</i>	93
8. The proposed directive on the award of concession contracts: implications for USO entrustment and compensation <i>Alessandra Fratini</i>	106
9. Application of EU competition law in the postal sector: overview of recent cases <i>Damien Geradin and Christos Malamataris</i>	116
10. Re-regulation for parcel delivery in the e-commerce context? <i>Joost Vantomme</i>	131
11. Delivering the goods to households: would further regulation help or hinder? <i>John Hearn</i>	146
12. The 'national champion' approach to postal operators: the case of the Netherlands <i>Benjamin Gough</i>	161
13. On alternative USO financing mechanisms for the US postal market <i>Michael D. Bradley, Jeff Colvin and Mary K. Perkins</i>	174

14. The net cost of the USO under the profitability cost approach: implications of labor market conditions for the net cost calculation 189
Isabelle Carslake, George Houpis and Christian Strobel
15. Regulation and the burden of the net cost resulting from the Universal Service Obligation 204
Christian Jaag, Urs Trinkner and Topias Uotila
16. Net cost calculation: a practical example concerning La Poste and its territorial presence obligation 214
Frédéric Fustier, Lionel Janin and Racha Sahly
17. Calculating the net cost of home delivery obligations 227
Andreas Haller, Christian Jaag and Urs Trinkner
18. Peer-to-peer digital commerce: implications and opportunities for the US Postal Service and other posts 240
Laraine Balk Hope, Virgil Ian Stanford and Bruce Marsh
19. Leveraging the postal infrastructure for the authentication of individuals toward an online government service provision 253
Caroline Sheedy and Maria Moloney
20. Accessibility/proximity in the digital age: what does it mean for postal networks and postal services? 267
Claire Borsenberger
21. Digitalization of consumer invoices: a comparative study 280
Kari Elkelä, Heikki Nikali and Chris J. Paterson
22. Eat or be eaten: the implications of strategic cannibalization and transformation for the United States Postal Service 294
Adam C. Houck
23. Finding the conditions for a successful social redeployment combined with diversification of activities 305
Dominique Bailly and Margaux Meidinger
24. Transparency and non-discrimination in postal pricing 317
Joakim Levin, Åsa Gustafsson, Anders Hildingsson and Sten Selander
25. The costs, functions and pricing of postal payment channels 329
Tim Walsh
