Part One

### Karl Maybach and His Work

- |  |  |
|--|--|
| 1. Youth, Years of Apprenticeship and Years of Travel                          | Construction of Passenger Cars and Commercial Vehicles 44  |
| The Father 41  | Engines for Rail-Bound Vehicles and Airships 44  |
| Years of Apprenticeship 41   | During the Economic Crisis 45  |
| Years of Travel 41   | Karl Maybach in the Third Reich: Motorization of the Military, Railcars – and Luxury Automobiles for the Rich 45 |
| Karl Maybach in France 1906 to 1908 42   | The Second World War 1939 to 1945 46   |
| 2. From Luftfahrzeug-Motorenbau-Gesellschaft to the End of the First World War | 4. Karl Maybach During the Reconstruction 1945 to 1960   |
| The Idea 42  | Time of Uncertainty 46   |
| Karl and Wilhelm Maybach 1908 to 1914 42                                       | Interlude in Vernon 46   |
| The First World War 43   | The Final Years 46   |
| Worries About the Future After Defeat in the War 43                            | <i>Airship Commander Hugo Eckener</i> 47   |
| 3. Karl Maybach and »Motorenbau« from 1918 up to the Collapse in 1945          | Colour Plates to Part One 47   |
| Plans for the Future 43  |  |

Part Two  
From Maybach to MTU

- Introduction 48
1. From the Early Days to the End of the First World War 1908 to 1918
    - The Region 48
    - The Founding of Luftfahrzeug-Motorenbau-Gesellschaft 48
    - Designer Turned Businessman 48
    - The Years of the First World War: Aircraft Engines – High-Altitude Engine – »Zahnrad-fabrik« 49
  2. During the Weimar Republic 1919 to 1932
    - A New Beginning 1918 to 1923 50
    - Starting a Railway Diesel Engine 50
    - Maybach-Motorenbau in the »Golden Years« of the Weimar Republic 51
    - MM During the Great Economic Crisis 1929 to 1932 52
    - The Great Age of Passenger Travel by Airship* 53
  3. The Years of Rearmament 1933 to 1939
    - Maybach-Motorenbau in 1933 53
    - The Early Days of National Socialism 53
    - The »Big Customer« Appears on the Scene 54
    - 25 Years of Maybach-Motorenbau 54
    - Maybach-Motorenbau During the First Years of Rearmament 54
    - Licences 55
    - Construction of Maybach Engines by Other Manufacturers 55
    - Karl Maybach Becomes »Defence Industry Manager« 55
    - The Last Years Before the War 56
  4. The Second World War 1939 to 1945
    - Maybach-Motorenbau from Autumn 1939 to Spring 1945 56
    - The Changeover to a Wartime Economy and the Time of »Blitzkrieg« 56
    - From European War to World War 57
    - The Turning-Point 57
  5. The Post-War Years 1945 to 1949
    - Repairing Tanks in Russia 58
    - The Final Months of »Total War« 58
    - The End of the War in Friedrichshafen 58
    - »Nordbau« 58
    - Construction Under Licence 58
    - Typhoid in Friedrichshafen 59
    - Performance Review at the Height of the War 59
    - Raebel in Difficulties 59
  5. The Post-War Years 1945 to 1949
    - The End or a New Beginning? 59
    - Worries of the Former »Defence Industry Manager« Karl Maybach 60
    - At the Start of the Post-War Period 60
    - Production in Friedrichshafen from the End of July 1946 60
    - Survival on a Knife-Edge 60
    - Removal of Machinery and Dismantling 60
    - Transfer of the Development Department to France and Its Work in Vernon 60
  6. The Period of Reconstruction 1949 to 1960
    - Hopes for the Future 61
    - Maybach-Motorenbau at the Start of the Fifties 61
    - New Prospects for the Future: Friedrich Flick KG Becomes a Shareholder 61
    - The »Economic Miracle« 62
  7. On the Way Towards MTU 1960 to 1969
    - Start of Cooperation with Daimler-Benz AG 63
    - Amalgamation of Mercedes-Benz Motorenbau GmbH with Maybach-Motorenbau GmbH in 1966 63
    - The Founding of MTU in 1969 63
    - Seventy Years of Engine Development in Friedrichshafen* 64
    - Karl Maybach's Legacy: Heavy-Duty Engines Today 64
- Colour Plates to Part Two 65

Part Three  
**Heavy-Duty Engines**
