Chapter 1	Nurturing Reflective Learners in Mathematics: An Introduction Berinderjeet KAUR	1
Chapter 2	The Neurocognition of Reflection: The Mystery in Learning, the Essence of Teaching, From Mystery to Mastery Frank Chee Tet VOON	13
Chapter 3	Working with the Whole Psyche: Nurturing Reflective Learners John MASON	33
Chapter 4	Knowledge and Beliefs for Nurturing Reflective Learners of Rational Number Concepts Kim BESWICK	57
Chapter 5	Metacognitive Reflection at Secondary Level WONG Khoon Yoong	81
Chapter 6	Reflecting on an <i>Excellent Teacher's</i> Video Recorded Mathematics Lesson: What Can We Learn? LIM Chap Sam CHEW Cheng Meng	103

Chapter 7	Learning from Student Reflections Barry KISSANE	123
Chapter 8	Reflecting on Calculation: When Drilling Becomes Fulfilling Anne WATSON	151
Chapter 9	Developing Reflective Learners Through Solving Non-Routine Problems Marian KEMP	167
Chapter 10	Mathematics Competition Questions and Mathematical Tasks for Instructional Use TOH Tin Lam	189
Chapter 11	Mathematical Tasks in the Advanced Mathematics Class for Nurturing Reflection Oh Nam KWON Ji Eun LEE	209
Chapter 12	Using Codes to Facilitate Metacognition in Mathematics WONG Oon Hua	233
Chapter 13	Mathematics Lessons Stimulating Reflective Learning: Japanese Perspective Keiko HINO	247
Chapter 14	Insights from Students' Process of Understanding Mathematics for Nurturing Reflective Learners Masataka KOYAMA	269
Chapter 15	Mathematics Learning Episode that Promotes Reflective Thinking Among Elementary Pupils Auxencia Alarcon LIMJAP	289
