

CONTENTS

I.	INTRODUCTION: THE SCOPE OF EDUCATIONAL PSYCHOLOGY	1
	Characteristics of Educational Psychology in the Past	1
	Characteristics of Educational Psychology Today	2
	The Province of Educational Psychology	6
	Relation of Educational Psychology to Schools or Systems of Psychology	9
	Questions and Exercises	12
	General References	13
II.	THE DEVELOPMENT OF BEHAVIOR: INTRODUCTORY	15
	Behavior at Birth	15
	Some Characteristics of the Course of De- velopment of Behavior	20
	Learning and Growth	23
	Maturation and Training in Relation to Mental Activities	29
	Some General Characteristics of the De- velopment of Behavior	31
	Summary	39
	Questions and Exercises	43
	General References	44
	References Cited in the Text	45
III.	PHYSICAL AND MOTOR DEVELOPMENT	48
	Growth in Height and Weight and Bodily Proportions	48
	Psychological Effects of Physical Changes in Adolescence	57
	Motor Development	61
	Handedness	70
	Motor Development and Play Activities	71
	Summary	76

	Questions and Exercises	79
	General References	81
	References Cited in the Text	83
IV.	EMOTIONAL DEVELOPMENT	85
	Changes with Age in Emotional Susceptibility	89
	Anger, Hostility, Vindictiveness	91
	Fear	97
	Pleasure	104
	Affection	109
	Laughter and Humor	113
	Summary	114
	Questions and Exercises	117
	General References	119
	References Cited in the Text	120
V.	DEVELOPMENT OF SOCIAL BEHAVIOR	124
	Parallels Between Social and Intellectual Development	133
	Individual Differences in Social Response	135
	Relative Potency of "Positive" and "Negative" Social Responses	141
	Sympathy	142
	Friendship	144
	Resistant and Aggressive Behavior	147
	Competition	150
	Leadership	152
	The Effect of Various Educational Provisions on Social Behavior	154
	Summary	159
	Questions and Exercises	163
	General References	165
	References Cited in the Text	167
VI.	MENTAL DEVELOPMENT	173
	Some General Characteristics of Mental Development	173

Memory	176
Language Development	178
Development of Concepts and Reasoning	182
Daydreams and Dreams	192
Moral Concepts	200
Summary	201
Questions and Exercises	204
General References	206
References Cited in the Text	207
VII. THE NATURE AND MEASUREMENT OF INTELLIGENCE	212
Typical Tests of Intelligence	212
Mental Age and Intelligence Quotient	220
Statistical Analyses of the Nature of Intelligence	222
A Definition of Intelligence	225
Influence of Nature and Nurture on Individual Differences in Intelligence	226
Some Misunderstandings and Valid Conclusions Regarding the Nature of Intelligence and Intelligence Testing	235
Summary	240
Questions and Exercises	242
General References	243
References Cited in the Text	245
VIII. THE PRACTICAL USES OF INTELLIGENCE AND APTITUDE TESTS	247
The Range of Individual Differences in Intelligence	247
Intelligence and Scholastic Achievement	249
Intelligence and Particular School Subjects	253
Intelligence and Vocational Success	254
Intelligence and Social Adaptability and Leadership	257
Intelligence and Moral Adjustments	259
Conclusions	260
Special Abilities and Disabilities	261

Prognosis Tests	265
Uses of Intelligence Tests and Aptitude Tests	269
Summary	277
Questions and Exercises	279
General References	280
References Cited in the Text	281
IX. THE GENERAL NATURE OF LEARNING — I	284
Needs and Opportunities for Learning	284
Definition of Learning	288
Learning and Maturation	290
Process of Learning	295
Intent to Learn	298
Motivation	300
Summary	307
Questions and Exercises	310
General References	311
References Cited in the Text	312
X. THE GENERAL NATURE OF LEARNING — II	315
Features of Learning in Complex Tasks	315
The Law of Effect	318
Learning as Goal-Directed Activity	319
Insight	322
Organization in Learning	326
Differentiation and Integration	327
The Importance of Relationships	331
Summary	332
Questions and Exercises	335
General References	337
References Cited in the Text	338
XI. PRINCIPLES OF GUIDANCE IN LEARNING — I	340
Principles of Guidance in the Acquisition of Skill	341

Essentials for Continued Improvement of Skill	349
The Value of Verbal Methods of Tuition	352
The Learning Curve	353
Summary	361
Questions and Exercises	362
General References	364
References Cited in the Text	365
XII. PRINCIPLES OF GUIDANCE IN LEARNING — II	367
Principles of Guidance in the Acquisition of Verbal Abilities	367
The Influence of Success or Failure	381
Retention after Verbal Learning	392
Summary	403
Questions and Exercises	404
General References	407
References Cited in the Text	408
XIII. THE DEVELOPMENT OF MEANINGS	412
Meaning the Central Problem in Educational Psychology	412
Difficulties in the Course of Developing Meanings	416
The Improvement of Understanding	423
Abstraction and Generalization	430
Summary	440
Questions and Exercises	441
General References	443
References Cited in the Text	444
XIV. REASONING AND PROBLEM SOLVING	446
The Nature and Development of Reasoning Ability	446
The Characteristics of Problem Solving	449
Activities Involved in Reasoning and Problem Solving	451

Becoming Aware of the Problem	452
Defining the Problem	453
Locating, Evaluating, and Organizing Information	455
Discovering Relationships and Formulating Hypotheses	459
Evaluating Hypotheses	463
Applying the Solution	466
Formulating Methods of Reasoning and Problem Solving	467
Reasoning and Problem Solving in the Area of Propaganda	469
Creative Imagination	472
Summary	475
Questions and Exercises	479
General References	482
References Cited in the Text	483
XV. TRANSFER OF TRAINING	485
Theory of Mental Faculties and Formal Discipline	486
Recent Theory and Research on Transfer	493
The Importance of Generalization	498
Negative Transfer	512
The Relative Values of Different Subjects	513
Summary	515
Questions and Exercises	516
General References	518
References Cited in the Text	519
XVI. APPRAISING PROGRESS BY MEANS OF TESTS AND OTHER DEVICES	522
Nature of Objective Tests	524
Types or Aspects of Ability Measured by Standardized Tests	527
The Use of Derived Scores and Norms	531
Essential Characteristics of a Good Test	535
The Choice of Objectives to Be Measured	536

Validity	538
Reliability	540
Economy and Usability	542
Effects of the Experience Upon the Pupil	543
Standardized Achievement and Diagnostic Tests	543
Types of Standardized Tests Now Available	547
Teacher-Made Objective Tests	552
The Essay Examination	556
Analysis of Errors	559
Observation of Activities	560
The Diagnostic Inventory	561
The Specialist's Case Study	563
Summary and Conclusions	565
Questions and Exercises	567
General References	569
References Cited in the Text	570

XVII. APPRAISING THE SCHOOL PROGRAM THROUGH STUDY OF PUPILS AS PERSONS	572
Study of Pupil Behavior in the Modern School	572
Observation	576
Anecdotal Records	578
Ratings and Evaluations by Pupils	581
Tests of Personality and of Emotional Ad- justment	588
Rating Scales for Use by Teachers	590
Conversations and Interviews	592
Projective Techniques	593
Approaches to the Study of Attitudes	598
Approaches to the Study of Children's In- terests, Wishes, Likes, and Dislikes	601
Summary	604
Questions and Exercises	607
General References	608
References Cited in the Text	608

XVIII.	THE ADJUSTMENT OF THE INDIVIDUAL	614
	General Nature of Adjustment and Maladjustment	614
	The Needs and Goals of the Individual	617
	Characteristics of Needs and Goals	619
	The Interrelation of Needs	622
	Sources of Frustration or Thwarting	625
	Factors Affecting Responses to Thwarting	628
	Emotion as a Reaction to Frustration	635
	The Effects of Humiliation	637
	Motivation of Behavior	638
	Learning, Needs, and the Adjustment Process	639
	Summary	641
	Questions and Exercises	642
	General References	643
	References Cited in the Text	644
XIX.	THE ADJUSTMENT PROCESS: TENSION REDUCTION	647
	Direct Methods of Tension Reduction	647
	Renewed Attempts to Reach the Original Goal	647
	Substitution of Other Goals	649
	The Process of Problem Solving: Analysis and Decision	652
	Indirect Methods	655
	Sublimation	656
	Withdrawal	658
	Identification	665
	Becoming Dependent	667
	Rationalization	668
	Repression, Projection, and Reversal Formation	672
	Expiation and Atonement	678
	Compensatory Methods	679
	Aggression as a Method of Tension Reduction	680

Illustration of the Use of Direct and Indirect Methods	689
Further Evaluation	691
Summary	692
Questions and Exercises	693
General References	694
References Cited in the Text	694
XX. MENTAL HEALTH HAZARDS OF THE SCHOOL CHILD	697
Extraschool Influences: The Parents and Family Life	697
Parents Who Reject the Child	699
Parents Who Overprotect the Child	703
Parents Who Show Favoritism	706
Parents Who Have Inordinately High Moral Standards	707
Other Damaging Family Conditions	708
Frequency of Harmful Family Conditions and Their Effect on the Adult Personality	708
Extraschool Influences: The Community	710
Effect of School Practices on Children's Behavior and Personality	713
Improvement in Handling Behavior Problems in the Classroom	720
Children with Special Problems of Adjustment	721
Summary	726
Questions and Exercises	727
General References	728
References Cited in the Text	729
XXI. GUIDANCE OF THE INDIVIDUAL CHILD	732
Adjustment Schedules	732
Projective Techniques	740
Methods of Observation	741

Interviewing Parents	743
Conferences with the Pupil	745
Interest Inventories and Analyses	745
The Cumulative Record	746
The Case Study	746
The Role of the Teacher and the Specialists in Aiding the Adjustment and Readjust- ment of the Child	753
The Evaluation of the Seriousness of Mal- adjustments	753
Aiding the Adjustment and Readjustment of the Child	755
Summary	760
Questions and Exercises	761
General References	762
References Cited in the Text	763
XXII. THE MENTAL HEALTH OF THE TEACHER	765
The Teacher as Adult	765
The Teacher as Teacher	773
Aspects of Teaching Conducive to Mental Health	774
Sources of Dissatisfaction in Teaching	776
Ways of Improving the Mental Health of the Teacher	786
Summary	793
Questions and Exercises	794
General References	795
References Cited in the Text	796
INDEX OF AUTHORS	801
SUBJECT INDEX	809
