|           |   |    |
|-----------|---|----|
| CHAPTER 1 | <i>An Introduction to Educational Psychology</i>  | 1  |
|           | Overview  | 2  |
|           | About Teaching  | 2  |
|           | Excellence in Teaching 2 / Teaching as Art and Science  | 3  |
|           | Effective Teachers  | 5  |
|           | Fostering Thinking Skills 6 / Building Self-Concept and<br>Motivation 8 / Managing Classroom Environments 9 / Delivering<br>Instruction 9 / Evaluating Learning 10 / Meeting the Needs of Special<br>Students 10 / Remaining Lifelong Learners 11 |    |
|           | Educational Psychology and Effective Teaching   | 11 |
|           | A Definition of Educational Psychology 11 / Looking Ahead   | 13 |
|           | Summary   | 14 |
|           | Suggested Readings  | 15 |
| <hr/>     |   |    |
| PART ONE  | COGNITIVE PSYCHOLOGY APPLIED TO TEACHING  | 16 |
| CHAPTER 2 | <i>An Introduction to Cognitive Processes</i>   | 18 |
|           | Overview and Objectives   | 19 |
|           | The Nature of Cognitive Processes   | 21 |
|           | A Model of Cognitive Processes  | 23 |
|           | Sense Receptors 24 / Sensory Registers 25 / Long-term<br>Memory 26 / Working Memory 27  |    |
|           | The Role of Knowledge   | 30 |
|           | Metacognition: Thinking About Thinking  | 31 |
|           | The Development of Metacognition 33 / Facilitating Students'<br>Metacognition 34  |    |
|           | The Development of Cognitive Psychology   | 35 |
|           | Structuralism 35 / Functionalism 36 / Gestalt<br>Psychology 37 / Contemporary Cognitive Psychology 38   |    |
|           | APPLICATIONS FOR TEACHING: A Cognitive Perspective on Student<br>Learning   | 40 |
|           | Summary   | 46 |
|           | Suggested Readings  | 46 |

|           |  |           |
|-----------|--|-----------|
| CHAPTER 3 | <b><i>Memory and Concepts</i></b>  | <b>49</b> |
|           | Overview and Objectives  | 50        |
|           | Memory   | 51        |
|           | Decay Theory 51 / Interference Theory 52 / Mnemonics: Making Nonmeaningful Material More Meaningful 55 / Information-Processing Theory 58 / Levels-of-Processing and Elaboration-of-Processing 61 / Schema Theory 62 / Parallel Distributed Processing 68 / Metamemory: Thinking About Memory 69 |           |
|           | APPLICATION FOR TEACHING: Enhancing Students' Memory   | 73        |
|           | Categorizing Information: Concepts   | 75        |
|           | Concept Attributes 76 / Type of Concepts 78 / Concept Prototypes 79 / Relationships Among Concepts: Network Models of Memory 79  |           |
|           | APPLICATIONS FOR TEACHING: Improving the Teaching of Concepts  | 84        |
|           | Organizing Personal Study to Improve Memory  | 88        |
|           | Summary  | 90        |
|           | Suggested Readings   | 90        |
| CHAPTER 4 | <b><i>Intelligence and Cognitive Development</i></b>   | <b>92</b> |
|           | Overview and Objectives  | 93        |
|           | Psychometric Approaches to Intelligence  | 94        |
|           | Intelligence Tests 94 / Psychometric Theories of Intelligence 98   |           |
|           | Information-Processing Approaches to Intelligence  | 101       |
|           | Hunt's Approach 102 / Sternberg's Triarchic Theory 104   |           |
|           | Intelligence and the Nature-Nurture Question   | 106       |
|           | A Developmental View of Intelligence: Jean Piaget  | 112       |
|           | Intelligence as Biological Adaptation 114 / Cognitive Organization and Adaptation 114 / Factors Influencing the Development of Cognition 117 / Operations and Stages of Cognitive Development 119  |           |
|           | Implications for Teaching  | 130       |
|           | APPLICATIONS FOR TEACHING: Piaget's Theory   | 131       |
|           | An Information-Processing Approach to Cognitive Development  | 132       |
|           | Current Theories 133 / Status of Information-Processing Views 135  |           |
|           | APPLICATIONS FOR TEACHING: Information-Processing Views  | 135       |
|           | Summary  | 136       |
|           | Suggested Readings   | 138       |

|           |   |            |
|-----------|---|------------|
| CHAPTER 5 | <b><i>Language and the Development of Literacy</i></b>  | <b>139</b> |
|           | Overview and Objectives   | 140        |
|           | Development of Language   | 141        |
|           | Early Language Perception 141 / Early Speech Production 143 / First Words 144 / First Sentences 145 / Emergent Literacy 147 |            |
|           | APPLICATIONS FOR TEACHING: Language Development Research  | 149        |
|           | About Reading   | 149        |
|           | Components of the Reading Process   | 150        |
|           | Stages in Learning to Read  | 158        |
|           | The Transition to Reading   | 158        |
|           | APPLICATIONS FOR TEACHING: Guidelines for Facilitating the Transition to Reading  | 161        |
|           | Beginning Reading   | 161        |
|           | APPLICATIONS FOR TEACHING: Guidelines for Teaching Beginning Reading  | 163        |
|           | The Middle Years: Developing Comprehension and Vocabulary   | 165        |
|           | APPLICATIONS FOR TEACHING: Guidelines for Developing Comprehension and Vocabulary   | 167        |
|           | The Adult Reader  | 168        |
|           | APPLICATIONS FOR TEACHING: Guidelines for Using Adjunct Aids  | 171        |
|           | About Writing   | 171        |
|           | Information-Processing Model of Writing   | 172        |
|           | APPLICATIONS FOR TEACHING: Improving Students' Writing  | 175        |
|           | Summary   | 177        |
|           | Suggested Readings  | 178        |

|           |   |            |
|-----------|---|------------|
| CHAPTER 6 | <b><i>Problem Solving and Creativity</i></b>  | <b>180</b> |
|           | Overview and Objectives   | 181        |
|           | Problem Solving   | 182        |
|           | E. L. Thorndike's Trial-and-Error Approach 182 / John Dewey's Pragmatic Approach to Problem Solving 184 / Insight: A Gestalt View 186 |            |
|           | Current Approaches to Problem Solving   | 188        |
|           | Domain-Specific Knowledge   | 193        |
|           | Methods of Solving Problems   | 196        |
|           | Problem-Search Techniques   | 196        |

|   |     |
|---|-----|
| APPLICATIONS FOR TEACHING: Helping Students Become Problem Solvers    | 203 |
| Creativity  | 205 |
| Frame of Reference 205 / Creativity at the Societal Level             | 206 |
| APPLICATIONS FOR TEACHING: Facilitating Students' Personal Creativity | 209 |
| Summary   | 213 |
| Suggested Readings  | 214 |

## **PART TWO** SELF-CONCEPT AND MOTIVATION 216

|                  |   |            |
|------------------|---|------------|
| <b>CHAPTER 7</b> | <b><i>Self-Concept and Moral Development</i></b>  | <b>218</b> |
|                  | Overview and Objectives   | 219        |
|                  | Establishing a Sense of Self—the Self Concept   | 219        |
|                  | The Formation of Self-Concept   | 221        |
|                  | Educational Implications of Self-Concept Research   | 227        |
|                  | APPLICATIONS FOR TEACHING: The Development of Positive Self-Concepts  | 228        |
|                  | Moral Development   | 229        |
|                  | Kohlberg and Stages of Moral Development 230 / A Social Learning View of Moral Development 236 / Social Cognition 236 |            |
|                  | APPLICATIONS FOR TEACHING: Fostering Moral Development  | 241        |
|                  | Summary   | 242        |
|                  | Suggested Readings  | 243        |
| <b>CHAPTER 8</b> | <b><i>Motivation</i></b>  | <b>245</b> |
|                  | Overview and Objectives   | 246        |
|                  | Maslow's Theory of Motivation   | 246        |
|                  | A Hierarchy of Needs 248 / Implications for Teaching  | 250        |
|                  | Aspirations and Need for Achievement  | 252        |
|                  | Attribution Theory  | 255        |
|                  | Explanations of Success and Failure 256 / Success Seekers and Failure Avoiders  | 257        |
|                  | APPLICATIONS FOR TEACHING: Motivation Theory in the Classroom   | 260        |
|                  | Summary   | 263        |
|                  | Suggested Readings  | 264        |

---

**PART THREE** GUIDING CLASSROOM BEHAVIOR 266

CHAPTER 9 *An Introduction to Behavioral Psychology* 268

- Overview and Objectives 269
- About Behavioral Psychology 269
- Stimuli 270 / Responses 271
- Early Views of the Interaction of Stimulus and Response 271
- Neutral Stimuli 272 / Unconditional Eliciting Stimuli 273
- Contemporary Views of Stimulus and Response 274
- Reinforcing Stimuli 275 / Punishing Stimuli 284 / Discriminative Stimuli: Stimulus Control of Behavior 285 / Shaping 288 / Extinction 290 / Self-Management 291
- Summary 295
- Suggested Readings 295

CHAPTER 10 *Social Learning and Modeling* 297

- Overview and Objectives 298
- Social Behavior 298
- Reciprocal Determinism 301 / Generality of Social Learning 302
- Social Learning Processes 303
- The Role of Reinforcement 303 / Modeling and Imitation 307
- APPLICATIONS FOR TEACHING: Instructional Goals and Observational Learning 313
- APPLICATIONS FOR TEACHING: Social Goals and Observational Learning 314
- The Ethical-Moral Dilemma 318
- Summary 319
- Suggested Readings 320

CHAPTER 11 *Classroom Management* 321

- Overview and Objectives 322
- APPLICATIONS FOR TEACHING: General Principles of Classroom Management 323
- Glasser's Approach to Problem Prevention 325
- A Behavioral Approach to Problem Prevention 330
- Desirable Behaviors 330 / Keys to an Effective Behavioral Approach 331

|   |     |
|---|-----|
| Some Specific Interventions for Managing Inappropriate Behavior | 336 |
| The Token Economy   | 336 |
| The Good Behavior   | 338 |
| Group Contracts   | 339 |
| Individual Contracts  | 339 |
| Time-Out  | 341 |
| Home-Based Contingencies  | 342 |
| Other Techniques  | 343 |
| Summary   | 346 |
| Suggested Readings  | 347 |

---

## **PART FOUR** EDUCATIONAL MEASUREMENT AND EVALUATION 350

|            |   |            |
|------------|---|------------|
| CHAPTER 12 | <b><i>An Introduction to Measurement</i></b>                          | <b>352</b> |
|            | Overview and Objectives   | 353        |
|            | Goals and Objectives  | 353        |
|            | Instructional Objectives  | 355        |
|            | Components of Instructional Objectives                                | 356        |
|            | Types of Objectives   | 360        |
|            | Cognitive Objectives  | 362        |
|            | Psychomotor Objectives  | 366        |
|            | Affective Objectives  | 367        |
|            | Cautions in Using Objectives  | 370        |
|            | Tips for Writing Instructional Objectives                             | 373        |
|            | Use of Measurement in Educational Settings                            | 374        |
|            | The Relationship of Measurement to Evaluation                         | 375        |
|            | Formative Evaluation  | 376        |
|            | Summative Evaluation  | 376        |
|            | Placement Evaluation  | 377        |
|            | Diagnostic Evaluation   | 378        |
|            | Summary of Formative, Summative, Placement, and Diagnostic Evaluation | 380        |
|            | Norm-Referenced and Criterion-Referenced Measures                     | 380        |
|            | Reliability and Validity of Measures                                  | 382        |
|            | Reliability   | 382        |
|            | Validity  | 385        |
|            | APPLICATIONS FOR TEACHING: Enhancing the Reliability of Your Measures | 384        |
|            | Summary of Reliability and Validity                                   | 388        |
|            | Choosing a Method of Measurement                                      | 389        |
|            | Summary   | 390        |
|            | Suggested Readings  | 391        |

|            |   |            |
|------------|---|------------|
| CHAPTER 13 | <b><i>Teacher-Made Tests</i></b>  | <b>399</b> |
|            | Overview and Objectives   | 400        |
|            | Testing   | 400        |
|            | Planning Tests 401 / Essay Questions 403 / Objective Questions              | 408        |
|            | APPLICATIONS FOR TEACHING: Item Analysis                                    | 421        |
|            | Observational Methods   | 423        |
|            | Performance and Work Samples 423 / Rating                                   |            |
|            | Scales 424 / Checklists 426 / Behavioral Observation                        | 429        |
|            | Other Evaluation Methods  | 429        |
|            | Anecdotal Reports 429 / Sociometric Methods 429 / Self-Report               |            |
|            | Methods   | 432        |
|            | Grading   | 435        |
|            | Norm-Referenced Grading 435 / Criterion-Referenced                          |            |
|            | Grading 438 / Grading on Improvement 439 / Grading on                       |            |
|            | Expectations 440 / Grading by Contract                                      | 441        |
|            | APPLICATIONS FOR TEACHING: Mistakes to Avoid When                           |            |
|            | Grading   | 441        |
|            | Summary   | 442        |
|            | Suggested Readings  | 442        |
| <br>       |   |            |
| CHAPTER 14 | <b><i>Standardized Tests</i></b>  | <b>447</b> |
|            | Overview and Objectives   | 448        |
|            | Characteristics of Standardized Tests                                       | 449        |
|            | Achievement Tests 451 / Diagnostic Achievement Tests 452 / Single-          |            |
|            | Subject-Area Achievement Tests 452 / Survey Batteries 453 / Uses of         |            |
|            | Standardized Achievement Tests 454 / Summary of Achievement                 |            |
|            | Tests   | 455        |
|            | Ability Tests   | 456        |
|            | Intelligence Tests and Scholastic Aptitude Tests 456 / Uses of Ability Test |            |
|            | Results 460 / Summary of Ability Tests                                      | 461        |
|            | Measures of Interests   | 461        |
|            | Interpreting Scores on a Standardized Test                                  | 463        |
|            | How Scores Are Described 463 / The Normal Curve 468 / Reporting             |            |
|            | Standardized Test Scores 470 / Imprecision of Scores: Standard Error of     |            |
|            | Measurement   | 474        |
|            | Professional Ethics and Standardized Tests                                  | 477        |

|   |     |
|---|-----|
| APPLICATIONS FOR TEACHING: Ethical Test Use | 478 |
| Summary                                     | 479 |
| Suggested Readings                          | 480 |

**PART FIVE** SPECIAL NEEDS STUDENTS 482

|            |  |            |
|------------|--|------------|
| CHAPTER 15 | <b><i>The Exceptional Student</i></b>  | <b>484</b> |
|            | Overview and Objectives  | 485        |
|            | Individual Differences and Exceptionality  | 486        |
|            | Categorization of Exceptional Students   | 487        |
|            | Categories of Exceptional Students   | 488        |
|            | Handicapped Students 488 / Gifted Students   | 500        |
|            | Bilingual Students   | 502        |
|            | Programs for Handicapped Students  | 506        |
|            | Residential Care 506 / Special Classes 506 / The Least Restrictive Environment and Mainstreaming | 507        |
|            | APPLICATIONS FOR TEACHING: Working with Handicapped Students                                     | 513        |
|            | Summary  | 515        |
|            | Suggested Readings   | 516        |
