Acknowledgments	xxi

PART I: REASONING ABOUT UNCERTAINTY AND VARIATION **1**

1. Separating Signal From Noise: Children's Understanding of Error and Variability in Experimental Outcomes 3
Amy M. Masnick, David Klahr, and Bradley J. Morris

2. Complex Visual Data Analysis, Uncertainty, and Representation 27
Christian D. Schunn, Lelyn D. Saner, Susan K. Kirschenbaum, J. Gregory Trafton, and Eliza B. Littleton

3. "I Don't Know What's Going on There": The Use of Spatial Transformations to Deal With and Resolve Uncertainty in Complex Visualizations 65
Susan Bell Trickett, J. Gregory Trafton, Lelyn Saner, and Christian D. Schunn

4. Students' Conceptual Understanding of the Standard Deviation 87
Robert C. delMas and Yan Liu

5. Using Students' Informal Notions of Variability to Develop an Understanding of Formal Measures of Variability 117
Joan Garfield, Robert C. delMas, and Beth Chance

6.	Contrasting Emerging Conceptions of Distribution in Contexts of Error and Natural Variation <i>Richard Lehrer and Leona Schauble</i>	149
7.	Discussion of Part I: Variation in the Meaning and Learning of Variation <i>Gaea Leinhardt and Jorge Larreamendy-Joerns</i>	177
PART II: STATISTICAL REASONING AND DATA ANALYSIS		191
8.	Do Naïve Theories Ever Go Away? Using Brain and Behavior to Understand Changes in Concepts <i>Kevin N. Dunbar, Jonathan A. Fugelsang, and Courtney Stein</i>	193
9.	Intricacies of Statistical Inference and Teachers' Understandings of Them <i>Pat W. Thompson, Yan Liu, and Luis A. Saldanha</i>	207
10.	Middle School Students' Use of Appropriate and Inappropriate Evidence in Writing Scientific Explanations <i>Katherine L. McNeill and Joseph Krajcik</i>	233
11.	Designing a Data Analysis Tool for Learners <i>Clifford Konold</i>	267
12.	Data-Analysis Skills: What and How Are Students Learning? <i>Marsha C. Lovett and Norma M. Chang</i>	293
13.	Reconsidering Prior Knowledge <i>Daniel L. Schwartz, David Sears, and Jammie Chang</i>	319
14.	Discussion of Part II: Statistical Reasoning and Data Analysis <i>Kenneth R. Koedinger</i>	345
PART III: LEARNING FROM AND MAKING DECISIONS WITH DATA		357
15.	Causal Learning From Observations and Manipulations <i>David Danks</i>	359
16.	Statistical Reasoning: Valid Intuitions Put To Use <i>Peter Sedlmeier</i>	389

17. Adolescents' Thinking About the Risks of Sexual Behaviors	421
<i>Wändi Bruine de Bruin, Julie S. Downs, and Baruch Fischhoff</i>	
18. Discussion of Part III: Learning and Making Decisions With Data	441
<i>Marie Burrage, Marina Epstein, and Priti Shah</i>
