

# Contents

## **chapter 1 Introduction 1**

**Overview of Public Sector Fiscal Operations 1**

**The Nature of the Economic Effects of Policies 5**

Allocation, 5    Distribution, 6    Stabilization, 7

**Positive Analysis and Value Judgments 7**

**Criteria for Policy Evaluation 8**

Equity, 8    Economic efficiency, 10    Paternalism, 13    Individual  
freedom, 14    Tradeoffs among the criteria, 15

**The Price System 15**

Economic efficiency in a price system, 16    Equity in a price  
system, 19    Paternalism and individual freedom in a price system, 20

**What Role for Government? 20**

**Supplementary Readings 21**

## **chapter 2 Market Failure: Public Goods and Externalities 23**

**The Nature of Public Goods 23**

Nonrival consumption, 23    Nonexclusion, 25

**Public Goods and the Free Rider Problem 26**

## **chapter 7 Social Security 190**

### **Pay-as-you-go Financing 192**

How a pay-as-you-go system operates, 193 Two types of redistribution, 195 Is social security a good deal?, 197

### **Social Security, Retirement, and Work Incentives 198**

#### **Social Security and Saving 200**

Possible offsets to reduced saving, 202 Evidence of the effect of social security on saving, 203

#### **Effects of Reduced Saving 204**

#### **Equity-Related Issues 208**

Individual equity versus social adequacy, 208 Single- and two-earner families, 211 The general level of retirement benefits, 212

#### **Demographic Trends and the Future 214**

How serious is the future financing problem?, 217

#### **Social Security and Public Choice 219**

#### **Proposal for Reform: Privatize Social Security 220**

Private provision for retirement, 220

#### **Supplementary Readings 223**

## **chapter 8 Government and the Distribution of Income 225**

### **Arguments Favoring Redistribution by Government 225**

Equity, 225 Public good element in redistribution, 226 Insurance, 228 Political power, 229

### **Arguments Opposing Redistribution by Government 230**

Equity, 230 Incentives and economic efficiency, 230 Political aspects, 231

### **Weighing the Pros and Cons 232**

### **Government Expenditure Policies Affecting Income Distribution 233**

#### **The Distribution of Money Income 236**

How many are poor?, 239

#### **Measuring Inequality 240**

Taxes and in-kind transfers, 241 Other factors affecting income distribution, 244

#### **Why Hasn't the Poverty Rate Fallen? 248**

#### **Half-full or Half-empty? 251**

#### **Supplementary Readings 254**

**chapter 9 Analyzing Income Transfer Programs 256****The Negative Income Tax 256**

The conflict among competing goals, 258    The NIT and actual welfare programs, 260    Closing the poverty gap with the NIT, 261

**The NIT and Work Incentives 264**

Evidence on work incentives, 267    The welfare cost of the NIT, 268  
The cumulative marginal tax rate problem, 270

**Wage Rate Subsidy 272****Public Employment Programs 274****Cash Versus In-Kind Transfers 278****Redistribution: How It Affects Marginal Tax Rates 281**

The cost of an income guarantee, 284

**The Equality-Efficiency Tradeoff 285****Proposal for Reform: The NIT 288****Supplementary Readings 292****chapter 10 Principles of Tax Analysis 294****Tax Incidence 294**

Balanced-budget incidence, 295    Differential incidence, 296

**Incidence of Excise Taxes 297**

Incidence and elasticities of supply and demand, 300    Significance of tax incidence, 302

**Partial Versus General Equilibrium Analysis 304**

Incidence of a general sales tax, 305

**Equivalence of Major Broad-Based Taxes 308****The Welfare Cost of Taxation 309**

Welfare cost: an alternative perspective, 311    Welfare cost: increasing cost industry, 313    Other sources of welfare cost, 314

**The Magnitude of Welfare Costs 315**

Price elasticities of supply and demand, 315    The tax rate, 317    Estimation of the welfare cost of taxation, 318

**Importance of the Welfare Cost of Taxation 320****Supplementary Readings 323**

## **chapter 11 The Federal Individual Income Tax 325**

### **What Is Income? 325**

#### **Definition of Taxable Income in Practice 327**

Exclusions, 328 Exemptions, 328 Deductions, 328 Tax credits, 329 Capital gains, 329

#### **Tax Rates and Tax Revenues 330**

Rate structure of the federal income tax, 332 Where the revenue comes from, 334 Evolution of the income tax structure, 337

#### **Proportional Income Taxation 339**

Incidence, 339 Welfare cost, 342

#### **Progressive Income Taxation 344**

Comparison of progressive and proportional taxes, 346 Empirical evidence, 348

#### **Tax Preferences 350**

The welfare cost of tax preferences, 353 Rationales for tax preferences, 354

#### **Other Effects of Income Taxation 357**

Saving, 357 Inflation and mismeasurement of capital income, 359 The marriage tax, 360

#### **Proposal for Reform: A Flat Rate Tax 362**

Advantages of a flat rate tax, 362 Disadvantages of a flat rate tax, 363

#### **Supplementary Readings 364**

## **chapter 12 The Corporation Income Tax 367**

### **Tax Base, Rates, and Revenues 367**

#### **Incidence 369**

Diagrammatic analysis, 370 Other factors affecting incidence, 374

#### **Welfare Cost 377**

#### **Issues in Tax Base Determination 379**

Depreciation, 379 Investment tax credit, 381 Capital gains, 382 Inflation and the measure of income, 383

#### **Effects of Changes in the Tax Base 384**

Incidence and welfare cost of differential taxation of assets, 386 The R&D tax credit, 388

#### **Proposal for Reform: Integration of the Corporation and Individual Income Taxes 390**

#### **Supplementary Readings 392**

## **chapter 13 Other Major Revenue Sources 394**

### **Social Security Payroll Tax 394**

Division of the tax between employer and employee, 396 Incidence, 398  
Welfare cost, 400 Issues in social security tax reform, 401

### **Taxes on Output 403**

Sales and excise taxes, 403 The value-added tax, 407

### **Property Taxation 410**

National property tax, 411 System of local property taxes, 412

### **Deficit Finance 415**

The emergence of large federal deficits, 415 How large is the deficit, really?, 418 Incidence of deficit finance, 419 Impact on capital markets, 421 Should we reduce the deficit?, 425

### **Supplementary Readings 428**

## **chapter 14 The Tax System 430**

### **The Distribution of the Tax Burden 430**

Tax burdens by income classes, 431 Other measures of tax burden distribution, 433

### **Taxation and Labor Supply 435**

Estimating the welfare cost, 439

### **Taxation and Capital Accumulation 443**

Is the rate of investment too low?, 449

### **Tax Rates, Tax Revenues, and the Laffer Curve 452**

Where are we on the Laffer curve?, 454 Where should we be on the Laffer curve?, 456 Can targeted tax rate reductions increase revenues?, 458

### **Proposal for Reform: A Consumption Tax 460**

Equity, 461 Efficiency, 463

### **Supplementary Readings 464**

## **chapter 15 Federalism 466**

### **Overview of State and Local Expenditures and Taxes 466**

### **Economic Advantages of Subnational Governments 470**

### **Economic Disadvantages of Subnational Governments 474**

### **Tax and Expenditure Analysis 476**

Principles, 476 The birth of an (illegal) industry, 478 Washington, D.C., learns a lesson, 480

**Special Topics in State-Local Public Finance** 481

Tax competition, 481 “Impure” local public goods, 482 Benefit  
“spillovers,” 483 Tax “exporting,” 485

**Intergovernmental Grants** 487

Conditional grants, 489 General revenue sharing, 492

**Proposal for Reform: End Tax Deductibility** 495

**Supplementary Readings** 497

**appendix: Consumer Choice Theory** 499

**The Consumer’s Preferences** 499

Indifference curves, 500

**The Consumer’s Budget** 503

The budget line, 504

**The Consumer in Equilibrium** 507

Changes in income, 510 Changes in prices, 512 Substitution and income  
effects of price changes, 514

**An Application** 516

**index** 521
