

Table of Contents

Preface	1
Chapter 1: Developing an Effective Online Course	7
The Moodle advantage	8
What will we accomplish with this book	9
Some Moodle requisites	9
Standard modules	10
Instructional principles and activities	10
What are we trying to do in an online course?	10
How does learning take place in an online course?	12
How people learn	13
Categories, classifications, and schemata	13
Social learning	14
Emulatory learning	14
Communities of practice	15
Social practices	16
Experiential learning	16
Conditions of learning	17
Behaviorism	18
Course-building components in Moodle	18
Resources	19
Book	19
Link to a file or website	19
Activities	20
Assignment	20
Choice	20
Database	20
Forum	21
Glossary	21
Quizzes	21
Journal	21
Lessons	21
Wiki	21
Course Timetable	21
Instructional principles and activities mapped to Moodle features	22

Access for everyone	22
Summary	23
Chapter 2: Instructional Material	25
<hr/>	
Selecting and organizing the material	25
Matching the material to the learning objectives	26
Using Forums to present your material	26
Incorporating social media and cloud-based resources	30
Creating a separate group for each student	30
Enrolling students	33
Creating a group for each student	36
Guiding and motivating students	37
Creating the learning environment	37
Asking permission and setting a policy	38
Types of forums	38
Single simple discussion forum	39
Standard forum	39
Keeping discussions on track	42
Using a custom scale to rate relevance	42
Splitting discussions	44
Will splitting move replies you want to keep in place?	44
Monitoring student participation in a forum	45
Determining who has posted to a forum	45
What postings has a student made	46
Summary	47
Chapter 3: Collaborative Activities	49
<hr/>	
Interaction involves collaboration	49
Uses of Chat	51
Test preparation and online study groups	51
Creating study groups	52
Groups carried over to other activities	52
Key settings for study groups in Chat	52
Assigning review topics	53
Kinds of questions	53
Reviewing papers and other assignments	54
Creating a one-on-one chat	54
Workaround 1 – Using groups	55
Workaround 2 – Restricting access	56
Guest speakers	57
Including chats from previous classes	57

Copying a transcript	57
Foreign language practice	59
Preparing for foreign language chat	60
Compiling and reviewing chat transcripts	63
Copying chat transcripts	63
Assigning a chat transcript as an editing exercise	64
Tips for a successful chat	64
Basic chat etiquette	64
Prepare for a definite starting and ending time	66
Limit the number of participants	67
Prepare a greeting for latecomers	67
Focus	67
Insert HTML	68
Summary	68
Chapter 4: Assessment	71
<hr/>	
The purpose of assessment	71
Assessment and your learning objectives	72
Types of assessments	72
Keys to successful assessment	72
Taking the fear out of assessment	73
Assessment with quizzes and distributed practice	75
Advantages and limitations of distributed practice	75
Opening and closing quizzes at predetermined times	77
Indicating that a quiz is closed	77
Using quizzes for frequent self-assessment	78
Making a quiz – a learning tool	80
Questions must be specific	80
Adding feedback to quiz questions	81
Feedback for a multiple choice question	81
Feedback for a numeric question	83
Reinforcing expertise with timed quizzes	85
Assessment and motivation	87
Frequent self-assessment	88
Self-generating certificates upon successful completion of assessment activities	88
Setting up the Gradebook	89
Badges	91
Summary	94
Chapter 5: Lesson Solutions	95
<hr/>	

Selecting and sequencing content for Lessons	96
Create conditions for learning	96
Employ scaffolding	97
Use chunking to help build concepts	97
Get students involved early	98
Keep it lively	99
Keep focused	99
Use media strategically	99
Diagnostic and developmental/remedial content	99
Reward practice	100
Build confidence for final graded performance	100
Getting started – a simple example	101
Moodling through a course	104
The need for sequential activities	106
Lesson settings	108
General settings	108
Grade options	109
Flow control	110
Lesson formatting	111
Access control	112
Other Lesson settings	113
Controlling the flow through a Lesson	113
Use a Lesson to create a deck of flash cards	114
Keep it moving	114
Lesson settings that help create a flash card experience	115
Use an ungraded Lesson to generate materials and strategies for real-world applications	116
A workaround	118
Summary	121
Chapter 6: Wiki Solutions	123
Using wikis to achieve learning objectives	123
Why a wiki?	124
Wiki versus forum	124
Wiki versus blog	125
An assignment	126
Let's agree to disagree	126
Individual student wikis	127
Creating individual wikis	128
Active reading strategies with individual student wikis	129
Creating a text file for the wiki's starting page	130

Creating multiple starting pages	132
Multiple text files create multiple starting pages	132
Creating links to other starting pages	133
Creating an individual student wiki in your course	134
Test the wiki as a student	135
Leveraging guided notes created by students	137
Suggested wiki etiquette	137
Summary	139
Chapter 7: Glossary Solutions	141
<hr/>	
Helping students learn – schema building	142
Moodle's glossary functions	142
Automatic linking to a glossary	144
Course versus site glossaries	145
Wiki versus site glossaries	145
Main versus secondary glossaries	145
Managing students' contributions to a glossary	146
Ratings and comments	147
Adding memory aids to glossary entries	147
Student-created class directory	148
Student-created test questions	149
Student-created extended definitions	150
Summary	152
Chapter 8: The Choice Activity	153
<hr/>	
Moodle's choice activity	154
A look at the choice activity	156
Students' point of view	157
Teachers' point of view	157
Number of choices	158
Limit	158
Publishing results	159
Privacy	160
Allowing students to change their minds	161
Student polls	161
Learning styles	161
Self-regulation	162
Choosing teams	162
Students' consent	163
Students' performance	164
Preview the final	164

Summary	164
Chapter 9: Course Solutions	165
<hr/>	
Building the course design document	165
Prioritizing and selecting based on learning objectives	167
Understanding your students, their technologies and their access	168
Overcoming course anxiety	168
Important announcements	168
Moving blocks to the main course area	170
The goal	170
Course blogs	171
Notes	172
General news and announcements – learning objectives	173
Using this workaround with other blocks	175
Section Links	175
Activities	177
The syllabus	178
Printer-friendly for letter and A4 sizes	178
Online calendar with event reminders	179
Encouraging course completion	180
Creating certificates	181
Creating Badges	181
Motivating interaction via webinars and web conferencing	183
Summary	186
Chapter 10: Workshop Solution	187
<hr/>	
Workshop overview and use	188
Workshops and collaborative solutions	189
Workshop basics	189
Listing your learning objectives	189
Planning your strategy	190
Grading peer assessment	190
Getting started – setting up the Workshop	191
Step-by-step example – submissions	197
Setting up a task	197
Assessing student peer assessment	198
Student grade – peer assessment and student work	200
What are the criteria for assessing the work?	200
What submissions will the student assess	202
Anonymous assessments	203
Classmate agreement on grades	204

Schedule for submitting the work and assessments	204
Summary	205
Chapter 11: Portfolio/Gallery Solution	207
<hr/>	
Learning objectives and outcomes	208
Advantages of collaborative activities	208
Project-based assessment	208
The best uses of project-based assessment	209
Learning objectives and projects	209
Collaboration and cooperation	209
Examples of portfolios and galleries	210
Multimedia presentations	210
Student presentations	212
Student image galleries	213
Student creative writing projects	213
Student research projects	213
Encouraging creativity – A sample workshop	213
The creative writing e-portfolio – My Hometown	213
Instructions to students	214
Procedures for collaboration	214
Our hometowns – A collective conversation	215
Supportive environments and intellectual risk taking	215
Tips for a successful experience	216
Summary	217
Index	219
<hr/>
