

Contents

Chapter 1. Introduction	1
Chapter 2. Loop measures and renormalized intersection local times	7
2.1. Renormalized intersection local times	9
2.2. Bounds for the error terms	16
Chapter 3. Continuity of intersection local time processes	25
Chapter 4. Loop soup and permanental chaos	29
Chapter 5. Isomorphism Theorem I	33
Chapter 6. Permanental Wick powers	35
Chapter 7. Poisson chaos decomposition, I	45
Chapter 8. Loop soup decomposition of permanental Wick powers	53
Chapter 9. Poisson chaos decomposition, II	61
9.1. Exponential Poisson chaos	61
9.2. Extensions to martingales	64
Chapter 10. Convolutions of regularly varying functions	67
References	77
