

# Contents

<b>Preface</b>	<b>ix</b>
<b>Acknowledgments</b>	<b>xi</b>

## 1

### **Introduction**

Descriptive versus Predictive Analysis	3
Rational versus Irrational Organizational Decision Making	8
The Rationality of Differentiation and Integration	10

## 2

### **Complexity: A Review of the Literature**

Structure versus Content	12
Definitions	16
Effects of the Environment and of Task Demands	18
Theoretical Positions in the Development of Complexity	
Theory prior to 1977	19
Advances in Complexity Theory since 1977	25
Research Results on Complexity Theory	28

### 3

#### **The Place of Complexity in Organizational Science**

Choice of Methodology	41
Results and Interpretation	44

### 4

#### **Complexity Theory: The Cognitive Structure of Individuals in the Organization**

Complexity Theory Applied to the Individual	54
Sources of Complexity	55
Hierarchical versus Flexible Complexity	60
Degrees of Complexity	61
Why Would Anybody Want to Be Cognitively Complex?	71
Complexity and Related Styles and Abilities	73
Complexity and the Environment	80
Behavioral and Cognitive Content	89
Complexity and Practical Intelligence	90

### 5

#### **Complexity Theory: The Structure of Information Processing in Organizations**

Complexity and Organizations	91
People	93
What Is Organizational Complexity?	97
Sources of Organizational Complexity	103
Intuition and Managerial Functioning	113
Organizational Leadership	115
Organizational Strategy and Planning	120
Organizational Functioning and the Environment	133

### 6

#### **The Measurement of Differentiative and Integrative Complexity**

Measuring Individual Differences in Cognitive Complexity	142
Measuring Individual, Team, and Organizational Performance	150
Measuring the Complexity of Organizational Information Flow	165

**7****Research Data on the Behavioral and Organizational Effects of Dimensionality**

Attitudes	167
Attributions	171
Attraction	172
Perception of Others' Intent and Strategy	173
Leadership	174
Task Performance	176
Research with Organizations and Organizational Decision Makers	189

**8****Physiological and Health Implications of Complexity and Other Managerial Styles**

Type A Coronary-Prone Behavior	197
Complexity, Arousal, and Disease	200
Tasks	201
Research	203
An Extension of Theory	210
The Complexity Dilemma	213

**9****Contributions of Complexity Theory to Organizations**

Theory and Research	219
Complexity in Managerial and Organizational Science	222

**APPENDIX****Measurement via the Time–Event Matrix**

Number of Decision Categories	229
Number of Decisions	230
Number of Integrations	230
Integration Time Weight	231
Quality of Integrated Strategies (QIS)	232
Multiplicity of Integration	233
Weighted QIS	234
Number of Respondent Decisions	235
Average Response Speed	237
Serial Connections	237

Planned Integrations	238
Multiplexity $F$	240
Measures of Performance Quality	241
