1 Introduction – a research agenda for shale gas in the European Union	1
1 Challenges for coherent regulation of shale gas in the European Union	1
2 Shale gas technology and its impacts on the environment	12
3 Methodology	16
2 In search of the legal basis for energy and environmental regulation at the EU level: the case of unconventional gas extraction and its impacts on a common European energy policy	19
1 Introduction	19
2 ‘Energy’ and ‘environment’ before and after the Lisbon Treaty	22
3 The vertical division of competences and shale gas	31
4 The horizontal competences and shale gas	45
5 Emerging trends in shale gas regulation: towards a common energy policy or Member States’ sovereignty?	60
6 Conclusion	81
3 Regulation of technology versus technology of regulation – risk and regulatory design of ‘new’ technologies in the European Union – lessons for and from shale gas	85
1 Introduction	85
2 Problem statement: law, science and new technologies	89
3 Risks, uncertainties and science: the role of the prevention and precautionary principles	100

4	Cross-cutting ‘new’ technologies and their regulation in the past	118
5	Regulation of ‘new’ technologies: aligning the approaches	127
6	Conclusion	178
4	Conclusion	184
