	Preface to the Third Edition	v
	Preface to the Second Edition	vii
	Preface to the First Edition	viii
	<i>To the Instructor</i>	viii
	<i>To the Student</i>	ix
<b>1</b>	<b>Introduction</b>	<b>1</b>
<b>2</b>	<b>Distributions and Graphs</b>	<b>9</b>
	<i>Program</i>	<b>26</b>
<b>3</b>	<b>Notation: Single Summation</b>	<b>45</b>
	<i>Program</i>	<b>48</b>
<b>4</b>	<b>Measures of Central Tendency</b>	<b>59</b>
	<i>Program</i>	<b>74</b>
<b>5</b>	<b>Measures of Variability</b>	<b>92</b>
	<i>Program</i>	<b>108</b>
<b>6</b>	<b>Standard Scores</b>	<b>120</b>
<b>7</b>	<b>Foundations of Statistical Inference</b>	<b>127</b>
	<i>Program</i>	<b>144</b>
<b>8</b>	<b>The Normal Distribution</b>	<b>164</b>
	<i>Program</i>	<b>175</b>
<b>9</b>	<b>The Standard Error of the Mean</b>	<b>203</b>
	<i>Program</i>	<b>221</b>
<b>10</b>	<b>The <math>t</math> Distribution</b>	<b>238</b>
	<i>Program</i>	<b>250</b>
<b>11</b>	<b>The <math>F</math> Test: Comparison of Variances</b>	<b>264</b>
	<i>Program</i>	<b>277</b>

12	<b>Notation: Multiple Summation Program</b>	<b>295 301</b>
13	<b>The <math>F</math> Test: Analysis of Variance and the Comparison of Means Program</b>	<b>315 334</b>
14	<b>Double Classification Analysis of Variance Program</b>	<b>355 370</b>
15	<b>Chi Square Program</b>	<b>387 399</b>
16	<b>Correlation Program</b>	<b>413 429</b>
17	<b>Selecting the Right Inferential Method Program</b>	<b>449 464</b>
18	<b>Recent Trends in Statistics Program</b>	<b>481 501</b>
	Answers to the Problems	<b>525</b>
	Appendixes	<b>563</b>
	Acknowledgments	<b>564</b>
<b>A</b>	<b>Squares, Square Roots, and Reciprocals</b>	<b>565</b>
<b>B</b>	<b>Percent of Area as a Function of the <math>z</math> Score</b>	<b>567</b>
<b>C</b>	<b>Values of <math>t</math> beyond which 5 Percent or 1 Percent of the Area Falls</b>	<b>572</b>
<b>D</b>	<b>Values of <math>F</math> beyond which 5 Percent or 1 Percent of the Area Falls</b>	<b>573</b>
<b>E</b>	<b>Values of <math>r_{xy}</math> beyond which 5 Percent or 1 Percent of the Area Falls</b>	<b>577</b>
<b>F</b>	<b>Values of Rho beyond which 5 Percent or 1 Percent of the Area Falls</b>	<b>578</b>
<b>G</b>	<b>Values of Chi Square beyond which 5 Percent or 1 Percent of the Area Falls</b>	<b>579</b>
<b>H</b>	<b>10,000 Random Numbers</b>	<b>580</b>
	Glossary of Symbols	<b>585</b>
	Index	<b>587</b>
