

TABLE OF CONTENTS

INTRODUCTION TO THE SERIES	V
PREFACE	VII
TABLE OF CONTENTS	IX
LIST OF TABLES	XI
LIST OF FIGURES.	XIV
TECHNICAL NOTES	XVI
CHAPTER 1. INFORMATION AND DIVIDEDNESS: RACIAL INTEGRATION, INDUSTRIAL DIVERSITY, AND THE COMBINING OF ASSETS ON BALANCE SHEETS	
1.1 Messages, Information, Entropy, and Uncertainty	1
1.2 An Axiomatic Approach to the Information Concept.	11
1.3 Entropy as a General Measure of Dividedness	13
1.4 The Racial Entropy of Chicago's Public Schools	15
1.5 The Entropy Decomposition Theorem	20
1.6 The Industrial Diversity of American Cities	23
1.7 Combining Assets on a Balance Sheet	32
1.8 Miscellaneous Applications of the Entropy Measure	40
Problems.	53
CHAPTER 2. EXTENSIONS TO SEVERAL DECOMPOSITIONS	
2.1 A Generalized Form of Message and Its Expected Information	56
2.2 Further Results on the Racial Composition of Chicago's Public Schools	63
2.3 Further Results on the Industrial Diversity of American Cities	70
2.4 Evaluating the Accuracy of Decomposition Forecasts	73
2.5 The Desired Political Entropy	87
2.6 The Measurement of Income Inequality	99
Problems.	109
CHAPTER 3. MULTIDIMENSIONAL EXTENSIONS	
3.1 Joint, Marginal, and Conditional Entropies	115
3.2 Application to Chicago's Public Schools and to Industrial Diversity.	121
3.3 The Expected Mutual Information	125

3.4 The Analysis and Prediction of Changes in Two-dimensional Decompositions	131
3.5 The Information Balance Sheet	144
3.6 How to Worry About Increased Expenditures	149
3.7 Generalizations for More than Two Dimensions	155
Problems.	160
 CHAPTER 4. DECOMPOSITIONS AND THEIR DETERMINING FACTORS	
4.1 Logits and Linear Logit Relations	166
4.2 Weighted Least-Squares Estimation of Linear Logit Relations	173
4.3 Logit Relations with Interaction Terms	179
4.4 Conditional Logit Relations	186
4.5 The Explanatory Power of Factors Determining Decompositions	197
4.6 The Cube Law on Party Legislative Representation	204
4.7 Miscellaneous Applications of the Logit	217
Problems.	227
British and American District Parameters	237
 CHAPTER 5. SOCIAL MOBILITY AND SOCIAL DISTANCE: A MARKOV CHAIN APPROACH	
5.1 A Markov Chain Model for Social Mobility	245
5.2 The Rate of Convergence Toward the Limit Distribution	257
5.3 Mean First Passage Times	267
5.4 Waiting Times and Travel Times	274
5.5 Reversible Markov Chains	280
5.6 A Distance Model for Social Mobility	291
5.7 The Effects of Aggregating Status Categories	303
Problems.	321
 BIBLIOGRAPHY	 325
 HINTS FOR SELECTED PROBLEMS	 329
 INDEX	 333
