

# Empirical Process Techniques for Dependent Data

Herold Dehling  
Thomas Mikosch  
Michael Sørensen  
*Editors*

Birkhäuser  
Boston • Basel • Berlin

# Contents

Preface .....	vii
<b>I. A Tutorial on Empirical Process Techniques for Dependent Data</b>	<b>1</b>
Empirical Process Techniques for Dependent Data <i>Herold Dehling and Walter Philipp</i> .....	3
<b>II. Techniques for the Empirical Process of Stationary Sequences</b>	<b>115</b>
Weak Dependence: Models and Applications <i>Patrick Ango Nze and Paul Doukhan</i> .....	117
Maximal Inequalities and Empirical Central Limit Theorems <i>Jérôme Dedecker and Sana Louhichi</i> .....	137
On Hoeffding's Inequality for Dependent Random Variables <i>Sara A. van de Geer</i> .....	161
On the Coupling of Dependent Random Variables and Applications <i>Florence Merlevède and Magda Peligrad</i> .....	171
Empirical Processes of Residuals <i>István Berkes and Lajos Horváth</i> .....	195
<b>III. The Empirical Process of Long Range Dependent Processes</b>	<b>211</b>
Asymptotic Expansion of the Empirical Process of Long Memory Moving Averages <i>Hira L. Koul and Donatas Surgailis</i> .....	213
The Reduction Principle for the Empirical Process of a Long Memory Linear Process <i>Liudas Giraitis and Donatas Surgailis</i> .....	241
Distributional Limit Theorems for Empirical Processes Generated by Functions of a Stationary Gaussian Process <i>Miguel A. Arcones</i> .....	257
<b>IV. Empirical Spectral Process Techniques</b>	<b>273</b>
Empirical Spectral Processes and Nonparametric Maximum Likelihood Estimation for Time Series <i>Rainer Dahlhaus and Wolfgang Polonik</i> .....	275
Empirical Processes Techniques for the Spectral Estimation of Fractional Processes <i>Philippe Soulier</i> .....	299

<b>V. The Tail Empirical Process in Extreme Value Theory</b>	<b>323</b>
Tail Empirical Processes Under Mixing Conditions	
<i>Holger Drees</i> .....	325
<b>VI. Bootstrap Techniques</b>	<b>343</b>
On the Bootstrap and Empirical Processes for Dependent Sequences	
<i>Dragan Radulović</i> .....	345
Frequency Domain Bootstrap for Time Series	
<i>Efstathios Paparoditis</i> .....	365
