PREFACE xi

1 *AN INTRODUCTION TO MATRICES AND VECTORS 1*

- 1.1 An Introduction to Matrices 1
- 1.2 An Introduction to Vectors 12
- 1.3 The Standard Inner Product 18
- 1.4 Matrix Multiplication 33
- 1.5 The Transpose of a Matrix 48
- 1.6 The Use of Matrix Multiplication in Defining Transformations 58

2 *SYSTEMS OF LINEAR EQUATIONS 70*

- 2.1 An Introduction 70
- 2.2 The Gauss-Jordan and Gaussian Methods 81
- 2.3 The Gauss-Jordan and Gaussian Methods (Continued) 89
- 2.4 Rank of a Matrix 98

3

LINEAR PROGRAMMING (OPTIONAL) 105

- 3.1 A Geometric Method of Solution 105
- 3.2 An Algebraic Method of Solution 114
- 3.3 An Introduction to the Simplex Method 121
- 3.4 The Simplex Method 125
- 3.5 Artificial Variables 136

4

THE INVERSE MATRIX 142

- 4.1 Definition, Calculation, and Properties of A^{-1} 142
- 4.2 Elementary Matrices 150
- 4.3 A Necessary and Sufficient Condition for the Existence of the Inverse 154

5

DETERMINANTS 163

- 5.1 Definition of the Determinant of a Square Matrix 164
- 5.2 The Determinant of a Triangular Matrix 172
- 5.3 Properties of Determinants (Optional) 177
- 5.4 A Formula for A^{-1} 181

6

EIGENVALUES AND EIGENVECTORS OF A MATRIX 192

- 6.1 Definitions 192
- 6.2 Systems of Linear Differential Equations (Optional) 202

7

VECTOR SPACES 210

- 7.1 Definition of a Vector Space 210
- 7.2 A Subspace of a Vector Space 215
- 7.3 Spanning Sets of a Vector Space 221
- 7.4 Linear Independence, Linear Dependence, and Basis 227
- 7.5 Dimension and Coordinates 236
- 7.6 Inner Products (Optional) 243
- 7.7 Length, Distance, and Angle (Optional) 249
- 7.8 Gram-Schmidt Orthogonalization (Optional) 255

8

LINEAR TRANSFORMATIONS 266

- 8.1** Definition and Examples 266
- 8.2** Matrix Representation of a Linear Transformation 274
- 8.3** Eigenvalues and Eigenvectors of a Linear Transformation 284
- 8.4** Change of Basis 291
- 8.5** The Effect of a Change of Basis on a Transformation Matrix 302
- 8.6** Diagonalization of a Matrix 309
- 8.7** Diagonalization of Symmetric Matrices 319
- 8.8** Real Quadratic Forms 324
- 8.9** Definite and Semidefinite Forms 330
