PREFACE	iii
1 PRELIMINARIES	1
1.0 Introduction	1
1.1 Initial Value Problems	1
1.2 Definition of Oscillation	5
1.3 Review of the Oscillation Theory of ODE	6
1.4 Some Oscillatory and Nonoscillatory Phenomena Caused by Deviating Arguments	8
1.5 Some Fixed Point Theorems	10
1.6 Notes	14
2 FIRST ORDER LINEAR EQUATIONS	15
2.0 Introduction	15
2.1 Stable Type Equations with a Single Delay	15
2.2 Equations with Oscillating Coefficients	26
2.3 Unstable Type Equations with a Single Delay	30
2.4 Unstable Type Equations with a Single Advanced Argument	35
2.5 Stable Equations with a Single Advanced Argument	40
2.6 Equations with Several Deviating Arguments and Constant Coefficients	42
2.7 Equations with Several Deviating Arguments and Variable Coefficients	51
2.8 Equations with Forcing Terms	61
2.9 Equations with Distributed Type Deviating Arguments	63
2.10 Notes	68
3 FIRST ORDER NONLINEAR EQUATIONS	70
3.0 Introduction	70
3.1 Equations with Deviating Arguments	70
3.2 Differential Inequalities with Deviating Arguments	78
3.3 Mixed Type Differential Equations	89
3.4 Functional Differential Equations	94
3.5 Positive Solutions of Superlinear Equations	100

3.6	General Nonlinear Equations	103
3.7	Nonlinear Equations with Forcing Terms	108
3.8	Equations with Distributed Type Deviating Arguments	110
3.9	Equations with Distributed Type Deviating Arguments (continued)	114
3.10	Oscillation on Both Sides	119
3.11	Notes	122
4	SECOND ORDER DIFFERENTIAL EQUATIONS	123
4.0	Introduction	123
4.1	Classification of Solutions of Linear Equations	123
4.2	The Existence of Solutions of a Class of Boundary Value Problems	130
4.3	The Existence of Bounded Oscillatory Solutions	134
4.4	Classification of Solutions of Nonlinear Equations	139
4.5	Nonlinear Equations with $\int_{t_0}^{\infty} ds/r(s) = \infty$	142
4.6	Nonlinear Equations with $\int_{t_0}^{\infty} ds/r(s) < \infty$	155
4.7	Equations with Deviating Argument	162
4.8	Notes	177
5	HIGHER ORDER DIFFERENTIAL EQUATIONS	179
5.0	Introduction	179
5.1	Third and Fourth Order Differential Equations with Deviating Arguments	179
5.2	Even Order Equations with Deviating Arguments	192
5.3	Linear Differential Equations and Inequalities with Deviating Arguments	202
5.4	A Class of Arbitrary Order Delay Equations	218
5.5	Equations with Deviating Arguments of Mixed Type	226
5.6	Nonlinear Differential Inequalities with Deviating Arguments	236
5.7	Equations with Forcing Terms	243
5.8	Notes	248
6	SYSTEMS OF DIFFERENTIAL EQUATIONS	249
6.0	Introduction	249
6.1	Two-Dimensional Linear Systems	249
6.2	Nonlinear Systems of Special Form	259
6.3	Linear Delay Systems	271
6.4	Oscillation of High Order Nonlinear Systems	279
6.5	Notes	286
	REFERENCES	287
	INDEX	307
