

Contents

1	Category Theory	1
1.1	Basic Concepts of Category Theory	1
1.2	Monoidal Categories	7
1.3	Monads	16
1.4	Colimits in Cat	19
1.5	Exercises and Notes	25
2	Involutive Categories	27
2.1	Definition and Examples	27
2.2	Involutive Functors	31
2.3	Involutive Natural Transformations and Adjunctions	34
2.4	Involutive Equivalences	39
2.5	Involutive Objects	40
2.6	Lifting Structures to Involutive Objects	45
2.7	Exercises and Notes	49
3	Coherence of Involutive Categories	51
3.1	Free Strict Involutive Categories	52
3.2	Free Involutive Categories	54
3.3	Strictification of Free Involutive Categories	60
3.4	Involutive Categories as Monadic Algebras	61
3.5	Presentability of Involutive Categories	64
3.6	Right Adjoint of the Forgetful Functor	69
3.7	Exercises	70
4	Involutive Monoidal Categories	71
4.1	Definitions and Examples	71
4.2	Rigidity of Involutive Monoidal Categories	77
4.3	Involutive Monoidal Functors	80
4.4	Involutive Monoidal Category of Involutive Objects	83
4.5	Involutive Monoids	86
4.6	Involutive Commutative Monoids	91

4.7	Reversing Involutive Monoids	93
4.8	Involutive Monads	97
4.9	Exercises and Notes	103
5	Coherence of Involutive Monoidal Categories	107
5.1	Free Involutive Monoidal Categories	107
5.2	Free Involutive Strict Monoidal Categories	121
5.3	Commutativity of Formal Diagrams	124
5.4	Strictification of Involutive Monoidal Categories	128
5.5	Free Involutive Monoidal Categories of Involutive Categories	134
5.6	Free Involutive Strict Monoidal Categories of Involutive Categories	141
5.7	Exercises and Notes	143
6	Coherence of Involutive Symmetric Monoidal Categories	145
6.1	Free Involutive Symmetric Monoidal Categories	146
6.2	Free Involutive Strict Symmetric Monoidal Categories	153
6.3	Commutativity of Formal Diagrams	155
6.4	Strictification of Involutive Symmetric Monoidal Categories	156
6.5	Free Involutive Symmetric Monoidal Categories of Involutive Categories	157
6.6	Free Involutive Strict Symmetric Monoidal Categories of Involutive Categories	160
6.7	Exercises	162
7	Categorical Gelfand–Naimark–Segal Construction	165
7.1	Monoid Inner Product Objects	166
7.2	Correspondence Between States and Inner Products	172
7.3	Proofs of Technical Lemmas	176
7.4	Exercises and Notes	184
8	Involutive Operads	185
8.1	Operads	187
8.2	Algebras	195
8.3	Involutive Operads as Involutive Monoids	201
8.4	Involutive Monads from Involutive Operads	207
8.5	Involutive Algebras of Involutive Operads	210
8.6	Change of Involutive Symmetric Monoidal Categories	215
8.7	AQFT Involutive Operad	220
8.8	Exercises and Notes	226
	Symbol Definition List	229
	Bibliography	235
