

# Contents

<b>1</b>	<b>Overview of the Volume</b> .....	1
1.1	Configuration Spaces of Manifolds .....	1
1.2	Configuration Spaces of Closed Manifolds .....	4
1.3	Configuration Spaces of Manifolds with Boundary .....	6
1.4	Configuration Spaces and Operads .....	8
1.4.1	Conventions .....	9
<b>2</b>	<b>Configuration Spaces of Manifolds</b> .....	11
2.1	Configuration Spaces .....	11
2.2	Homotopy Invariance .....	18
2.3	Rational Homotopy Invariance .....	23
2.4	Configuration Spaces of Euclidean Spaces .....	34
<b>3</b>	<b>Configuration Spaces of Closed Manifolds</b> .....	47
3.1	The Lambrechts–Stanley Model .....	48
3.1.1	Definition of the Model .....	48
3.1.2	Statement of the Theorem and Proof Strategy .....	56
3.2	Fulton–MacPherson Compactifications .....	58
3.2.1	Case of Euclidean Spaces .....	58
3.2.2	Case of Closed Manifolds .....	64
3.3	Semi-algebraic Sets and PA Forms .....	66
3.3.1	Semi-algebraic Sets .....	67
3.3.2	Piecewise Semi-algebraic Forms .....	67
3.4	Graph Complexes .....	72
3.4.1	Informal Idea .....	72
3.4.2	Definition of the Unreduced Graph Complex .....	74
3.4.3	An Issue with the Homotopy Type .....	78
3.4.4	Propagator .....	79
3.4.5	Partition Function as a Maurer–Cartan Element .....	82
3.4.6	Simplification of the Partition Function .....	85
3.5	End of the Proof .....	89

<b>4</b>	<b>Configuration Spaces of Manifolds with Boundary</b> .....	95
4.1	Motivation .....	95
4.2	Poincaré–Lefschetz Duality Models .....	98
4.3	Graphical Models .....	104
4.3.1	Compactifications .....	105
4.3.2	Propagators .....	110
4.3.3	Graph Complexes .....	112
4.3.4	Simplification of the Partition Functions .....	114
4.3.5	Quasi-Isomorphism .....	118
4.4	Perturbed Lambrechts–Stanley Model .....	120
4.4.1	Computation of the Homology .....	120
4.4.2	Perturbed Model .....	124
<b>5</b>	<b>Configuration Spaces and Operads</b> .....	127
5.1	Motivation: Factorization Homology .....	127
5.1.1	Historical Remarks .....	129
5.2	Introduction to Operads .....	130
5.2.1	Definition of Operads .....	130
5.2.2	Algebras over an Operad .....	135
5.2.3	Modules over Operads .....	137
5.3	Configuration Spaces and Operads .....	141
5.3.1	Little Disks Operads .....	141
5.3.2	Relationship with Configuration Spaces .....	144
5.3.3	Operadic Structures on Compactifications .....	147
5.4	Models for Configuration Spaces and Their Operadic Structure .....	152
5.4.1	Formality of the Little Disks Operads .....	152
5.4.2	Operadic Module Structures on Models for Configuration Spaces .....	158
5.4.3	Swiss-Cheese .....	160
5.5	Example of Calculation .....	165
	<b>References</b> .....	173
	<b>Index</b> .....	183
