<i>Preface: How to read this book</i>	<i>xii</i>
<i>Acknowledgements</i>	<i>xiv</i>
PART I	
The PsychMapping perspective	1
1 PsychMapping and sport, exercise, and performance psychology	3
PART II	
What are people made of?	17
2 Descriptive traits: Who the heck are you?	19
3 Descriptive states: What on earth is the matter with you today?	32
4 The relation between descriptive states and traits: That experience totally changed me!	44
5 The externalized self: Behaviour, performance, and environmental interaction	53
Case 1 Self-reflexion exercises to understand clients' identity and experiences	72

PART III	
All that what surrounds people	83
6 External factors: There is always something or someone to blame!	85
7 Interpersonal PsychMapping model: From individual focus to collective insight	107
Case 2 A team mapping analysis based on the interpersonal PsychMapping model	113
PART IV	
The major processes that shape us	121
8 External perception: It's not you, it's me	123
9 Self-regulation: Get your act together!	141
Case 3 Building self-knowledge, improving self-regulation	166
PART V	
Applied practice	175
10 Indirect interventions: You might never know what I have done for you	177
11 Working with individuals: So much more than interventions	188
PART VI	
The basic PsychMapping exercise	201
12 The PsychMapping exercise: Not really an interview guide	203
13 The PsychMapping exercise construction manual	214
14 Analysis: Don't take this the wrong way	231
<i>Appendix: Further reading suggestions</i>	<i>241</i>
