## Part I Total Diet Study Methodology

<b>1</b>	<b>Total Diet Studies—What They Are and Why They Are Important</b> .....	<b>3</b>
	Gerald G. Moy	
<b>2</b>	<b>The Origin of Total Diet Studies</b> .....	<b>11</b>
	Katie Egan	
<b>3</b>	<b>Risk Analysis Paradigm and Total Diet Studies</b> .....	<b>19</b>
	Philippe J.-P. Verger	
<b>4</b>	<b>Overview of Dietary Exposure</b> .....	<b>27</b>
	Barbara J. Petersen	
<b>5</b>	<b>Scope, Planning and Practicalities of a Total Diet Study</b> .....	<b>37</b>
	Richard W. Vannoort	
<b>6</b>	<b>Preparing a Food List for a Total Diet Study</b> .....	<b>53</b>
	U. Ruth Charrondiere	
<b>7</b>	<b>Selecting Chemicals for a Total Diet Study</b> .....	<b>63</b>
	Jiri Ruprich	
<b>8</b>	<b>Preparing a Procedures Manual for a Total Diet Study</b> .....	<b>71</b>
	Janice L. Abbey, Christel Leemhuis, and Carolyn Mooney	
<b>9</b>	<b>Food Sampling and Preparation in a Total Diet Study</b> .....	<b>83</b>
	Richard W. Vannoort, Janice L. Abbey, Christel Leemhuis, and Carolyn Mooney	
<b>10</b>	<b>Analyzing Food Samples—Organic Chemicals</b> .....	<b>103</b>
	Chris A. Sack	

<b>11</b>	<b>Analyzing Food Samples—Inorganic Chemicals</b> .....	127
	Sean M. Ryan	
<b>12</b>	<b>Analyzing Food Samples—Radionuclides</b> .....	135
	Pamela Mackill and Cong Wei	
<b>13</b>	<b>Quality Control and Assurance Issues Relating to Sampling and Analysis in a Total Diet Study</b> .....	141
	Pieter Scheelings	
<b>14</b>	<b>Commercial Analytical Laboratories—Tendering, Selecting, Contracting and Managing Performance</b> .....	153
	Janice L. Abbey and Carolyn Mooney	
<b>15</b>	<b>Managing Concentration Data—Validation, Security, and Interpretation</b> .....	161
	Carolyn Mooney, Janice L. Abbey, and Leanne Laajoki	
<b>16</b>	<b>Reporting and Modeling of Results Below the Limit of Detection</b> .....	169
	Marc Aerts, Martine I. Bakker, Pietro Ferrari, Peter Fuerst, Jessica Tressou, and Philippe J.-P. Verger	
<b>17</b>	<b>Dietary Exposure Assessment in a Total Diet Study</b> .....	179
	Julie L. Boorman, Janis Baines, Tracy L. Hambridge, and Janice L. Abbey	
<b>18</b>	<b>Addressing Uncertainty and Variability in Total Diet Studies</b> .....	191
	Christel Leemhuis, Judy Cunningham, and Amélie Crépet	
<b>19</b>	<b>Communicating Results in a Total Diet Study</b> .....	201
	Cherie A. Flynn	
 <b>Part II Total Diet Studies in Countries</b>		
<b>20</b>	<b>The Australian Experience in Total Diet Studies</b> .....	211
	Janice L. Abbey, Janis Baines, Leanne Laajoki, and Tracy L. Hambridge	
<b>21</b>	<b>Total Diet Study in Cameroon—A Sub-Saharan African Perspective</b> .....	221
	M. Madeleine Gimou, Regis Pouillot, Claudy Roy, U. Ruth Charrondiere, Jean-Charles Leblanc, Abdoulaye Diawara, Drissa Siri, and Orish E. Orisakwe	
<b>22</b>	<b>Canadian Total Diet Study Experiences</b> .....	233
	Robert W. Dabeka, Dorothea F.K. Rawn, Xu-Liang Cao, and John Moisey	
<b>23</b>	<b>The Chinese Experience in Total Diet Studies</b> .....	245
	Junshi Chen	

<b>24</b>	<b>The First Total Diet Study in Hong Kong, China</b> .....	253
	Waiky W.K. Wong, Ying Xiao, Stephen W.C. Chung, and Y.Y. Ho	
<b>25</b>	<b>Experiences in Total Diet Studies in the Czech Republic</b> .....	259
	Jiri Ruprich and Irena Rehurkova	
<b>26</b>	<b>The Present and Future Use of Total Diet Studies by the European Food Safety Authority</b> .....	267
	Stefan U. Fabiansson and A.K. Djien Liem	
<b>27</b>	<b>The First Total Diet Study in Fiji</b> .....	279
	William Aalbersberg	
<b>28</b>	<b>The French Total Diet Studies</b> .....	289
	Véronique Sirot and Jean-Charles Leblanc	
<b>29</b>	<b>Total Diet Studies in the Indian Context</b> .....	297
	Kalpagam Polasa and V. Sudershan Rao	
<b>30</b>	<b>Experiences in Total Diet Studies in Indonesia</b> .....	309
	Roy A. Sparringa, Winiati P. Rahayu, and Rina Puspitasari	
<b>31</b>	<b>Total Diet Studies in Japan</b> .....	317
	Fujio Kayama, Hiroshi Nitta, Satoshi Nakai, Satoshi Sasaki, and Hyogo Horiguchi	
<b>32</b>	<b>Total Diet Studies in the Republic of Korea</b> .....	327
	Hae Jung Yoon	
<b>33</b>	<b>Dietary Exposure to Heavy Metals and Radionuclides in Lebanon: A Total Diet Study Approach</b> .....	337
	Lara Nasreddine	
<b>34</b>	<b>The Malaysian Experience in a Total Diet Study</b> .....	349
	Noraini Mohd Othman, Jamal Khair Hashim, Shamsinar Abdul Talib, Fadzil Othman, Cheow Keat Chin, Laila Rabaah Ahmad Suhaimi, Noraini Ab Wahab, Zawiyah Sharif, Ghanthimathi Subramaniam, Wan Ainiza Wan Mustapha, Norhidayu Ibrahim, Norhidayah Othman, Nor Ismawan Othman, Anida Azhana Husna Zanudeen, and Nur Hidayah Jamaludin	
<b>35</b>	<b>New Zealand's Experience in Total Diet Studies</b> .....	357
	Richard W. Vannoort and Cherie A. Flynn	
<b>36</b>	<b>Experiences in Total Diet Studies in Spain</b> .....	373
	Victoria Marcos	
<b>37</b>	<b>Total Diet Study in the Basque Country, Spain</b> .....	379
	Mercedes Jalón, Inés Urieta, and M. Luz Macho	

<b>38</b>	<b>Total Diet Studies in Catalonia, Spain</b> .....	385
	Eduard Mata, Victoria Castell, Joan Ma Llobet, Jose L. Domingo, and Patricia Gosalbez	
<b>39</b>	<b>Total Diet Studies in Sweden: Monitoring Dietary Exposure to Persistent Organic Pollutants by a Market Basket Approach</b> .....	389
	Per Ola Darnerud, Wulf Becker, Tatiana Cantillana, Anders Glynn, Emma Halldin-Ankarberg, and Anna Törnkvist	
<b>40</b>	<b>Total Diet Studies—United Kingdom’s Experience</b> .....	403
	Joseph Shavila	
<b>41</b>	<b>United States Food and Drug Administration’s Total Diet Study Program</b> .....	411
	Katie Egan	
 <b>Part III Special Topics in Total Diet Studies</b>		
<b>42</b>	<b>GEMS/Food and Total Diet Studies</b> .....	421
	Gerald G. Moy	
<b>43</b>	<b>GEMS/Food Consumption Cluster Diets</b> .....	427
	Fanny Héraud, Leila M. Barraç, and Gerald G. Moy	
<b>44</b>	<b>Food Mapping in a Total Diet Study</b> .....	435
	Julie L. Boorman, Janis Baines, Tracy L. Hambridge, and Janice L. Abbey	
<b>45</b>	<b>Automated Programs for Calculating Dietary Exposure</b> .....	445
	Polly E. Boon, Judy Cunningham, Gerald G. Moy, David Ormerod, Barbara J. Peterson, and Rainer Reuss	
<b>46</b>	<b>OPAL—A Program to Manage Data on Chemicals in Food and the Diet</b> .....	453
	Gunter Sommerfeld and Gerald G. Moy	
<b>47</b>	<b>Involving and Influencing Key Stakeholders and Interest Groups in a Total Diet Study</b> .....	461
	Cherie A. Flynn	
<b>48</b>	<b>Linking Nutrition Surveys with Total Diet Studies</b> .....	467
	Junshi Chen	
<b>49</b>	<b>Emerging Chemical Contaminants in Total Diet Studies in China</b> ....	473
	Yongning Wu, Jingguang Li, Pingping Zhou, Wusheng Fu, Gong Zhang, Hong Miao, Xiaowei Li, Junquan Gao, Yunfeng Zhao, and Junshi Chen	

<b>50</b>	<b>Using Total Diet Studies to Assess Acrylamide Exposure</b> .....	<b>489</b>
	Kevin D. Hargin	
<b>51</b>	<b>Polybrominated Diphenyl Ethers in Food in Australia—An Additional Use of the Australian Total Diet Study</b> .....	<b>501</b>
	Gillian Duffy and Janice L. Abbey	
<b>52</b>	<b>Risk Assessment and Management Interface—Example of Methylmercury in Fish</b> .....	<b>513</b>
	Jiri Ruprich and Irena Rehurkova	
<b>53</b>	<b>The German Approach to Estimating Dietary Exposures Using Food Monitoring Data</b> .....	<b>521</b>
	Oliver Lindtner, Katharina Berg, Katrin Blume, Ulrike Fiddicke, and Gerhard Heinemeyer	
<b>54</b>	<b>Total Diet Studies for Infants—Example of Persistent Organic Pollutants in Human Milk</b> .....	<b>531</b>
	Seongsoo Park, Rainer Malisch, and Gerald G. Moy	
	<b>Index</b> .....	<b>539</b>
