The Heisenberg Category of a Category

Adam Gyenge
Clemens Koppensteiner
Timothy Logvinenko

April 2026 • Volume 320 • Number 1633 (seventh of 7 numbers)

Contents

Chapter 1. Introduction	1
1.1. Heisenberg algebras of categories	1
1.2. Categorification	2
1.3. Main results	3
1.4. Relation to earlier results	5
1.5. The additive construction	5
1.6. The DG construction	7
1.7. Results on DG categories	9
1.8. Further questions and remarks	10
1.9. Structure of the paper	11
1.10. Acknowledgments	11
1.11. Notation	11
Chapter 2. Preliminaries	13
2.1. Serre functors	13
2.2. Heisenberg algebras	14
Chapter 3. The Additive Heisenberg 2-category	19
3.1. The category $\mathbf{H}_V^{\text{add}'}$: generators	19
3.2. The category $\mathbf{H}_V^{\text{add}'}$: relations between 2-morphisms	22
3.3. Remarks on the 2-morphism relations in $\mathbf{H}_V^{\text{add}'}$	24
3.4. The category $\mathbf{H}_V^{\text{add}}$: Karoubi-completion	28
3.5. The categorical Fock space in the additive case	29
Chapter 4. Preliminaries on DG Categories	35
4.1. Enriched bicategories	36
4.2. DG-categories	40
4.3. Bimodule approximation	42
4.4. DG enhanced triangulated categories	45
4.5. The perfect hull of a DG bicategory	48
4.6. Monoidal Drinfeld quotient	51
4.7. Homotopy Serre functors	58
4.8. G -equivariant DG categories for strong group actions	59
4.9. The numerical Grothendieck group and the Heisenberg algebra of a DG category	61
Chapter 5. The DG Heisenberg 2-category	65
5.1. The category $\mathbf{H}'_V$: generators	65
5.2. The category $\mathbf{H}'_V$: relations between 2-morphisms	67
5.3. Remarks on the 2-morphism relations in $\mathbf{H}'_V$	69

5.4. The category $\mathbf{H}_{\mathcal{V}}$: the perfect hull and homotopy relations	71
Chapter 6. Structure of the Heisenberg Category	75
6.1. The Heisenberg commutation relations: DG level	75
6.2. The Heisenberg commutation relations: homotopy level	82
6.3. The transposed generators	89
6.4. Grothendieck groups	92
6.5. Quantum enhancement	94
Chapter 7. The Categorical Fock Space	97
7.1. Symmetric powers of DG categories	97
7.2. The categorical Fock space $\mathbf{F}_{\mathcal{V}}$	102
7.3. The representation $\Phi'_{\mathcal{V}}$: the generators	103
7.4. The representation $\Phi'_{\mathcal{V}}$: The Heisenberg 2-relations	106
7.5. From $\Phi'_{\mathcal{V}}$ to $\Phi_{\mathcal{V}}$	111
Chapter 8. Structure of the Categorical Fock Space	115
8.1. The symmetrised operators	115
8.2. Grothendieck groups and the classical Fock space	118
8.3. The Fock space as a quotient	123
8.4. Reconstruction of the base category	126
Bibliography	129
Index	133
