Rescaled SIR Epidemic Processes Converge to Super-Brownian Motion in Four or More Dimensions

Jieliang Hong

April 2026 • Volume 320 • Number 1629 (third of 7 numbers)

Contents

Chapter 1.	Introduction	1
1.1.	Connection with the range- R bond percolation	6
1.2.	Sketch of the proof	7
Chapter 2.	Proof of the main result	9
Chapter 3.	Upper bounds for the collision term	15
Chapter 4.	Refined estimates for the collision term	23
Chapter 5.	Convergence of the collision term	29
Chapter 6.	Convergence of the constant	33
Chapter 7.	A lower bound for β_c of continuous time SIR epidemics	41
Appendix A.	Proofs of Lemmas 2.2–2.5	43
Appendix B.	Proofs of Lemmas 5.1–5.3 and Lemma 5.5	47
Appendix C.	Proof of Lemma 5.6	61
C.1.	Bounds for $\mathbb{E}(R_1)$	63
C.2.	Bounds for $\mathbb{E}(R_2)$	65
C.3.	Bounds for $\mathbb{E}(R_3)$	70
Appendix D.	Proofs of Lemmas 5.4 and 5.8	75
D.1.	Proof of Lemma D.1(i)	77
D.2.	Proof of Lemma D.1(ii)	95
Bibliography		99
