Preface	xxiii
Acknowledgments	xxv
About the Author	xxviii

Chapter 1 Challenges in Assessing Children 1

Four Pillars of Assessment: Norm-Referenced Tests, Interviews, Observations, and Informal Assessment	3
Guidelines for Assessment	5
Labels and Classification	5
The Need to Consider Ethnic and Cultural Diversity	6
Response to the Attack on Tests	6
Behavioral Objectives of This Text	6
Philosophy of This Text	10
Concluding Comment on Challenges in Assessing Children	10
Summary	11

Chapter 2 Useful Statistical and Measurement Concepts 12

Descriptive Statistics	13
Multiple Correlation	20
Norm-Referenced Measurement	20
Derived Scores	20
Statistical Significance	24
Reliability	25
Validity	30
Factor Analysis	31
Test Your Skill	34
Summary	34

Chapter 3 Historical Survey and Theories of Intelligence 37

Nineteenth-Century Developments	38
Twentieth-Century Developments	42
Definitions of Intelligence	44
Factor Analytic Theories of Intelligence	46
Information-Processing Approaches to Intelligence	50

Other Approaches to Intelligence	52
Comments on Modern Views of Intelligence	56
Summary	58

Chapter 4 Issues Related to the Measurement and Change of Intelligence 61

Genetic Programming, Maturation Status, and Environmental Influence	62
Intellectual Functioning: Hereditary Influences	62
Intellectual Functioning: Environmental Influences	63
Comment on Hereditary and Environmental Influences on Intellectual Functioning	69
Intellectual Functioning: Personality, Social, and Gender Influences	70
Stability and Change of Intelligence	70
Distinctions Between Intelligence Tests and Achievement Tests	73
Criterion-Referenced vs. Norm-Referenced Testing	73
Mental Age	75
Cortical Evoked Potential, EEG Recordings, and Intelligence	76
Reaction Time, Movement Time, Inspection Time, and Intelligence	76
The Testing of Intelligence: Pro and Con	77
Summary	82

Chapter 5 Testing Children 85

Establishing Rapport	86
Observing Children	88
Testing Infants and Preschool Children	88
Testing Ethnic Minority Children	90
Testing Emotionally Disturbed, Shy, or Delinquent Children	91
Testing Autistic Children	93
Testing Brain-Injured Children	94
Testing Mentally Retarded Children	95
Testing Physically Handicapped Children: General Suggestions	96
Testing Visually Impaired Children	98
Testing Hearing-Impaired Children	99
Testing Cerebral Palsied Children	102
Suggestions for Administering Tests	103
Examiner Characteristics	112

A Final Thought—Through a Child's Eyes 115
 Summary 115

■ **Chapter 6**

**Wechsler Intelligence Scale for Children—
 Revised (WISC-R): Description** 119

Standardization 121
 Deviation IQs, Scaled Scores, and Test-Age
 Equivalents 121
 Reliability 122
 Validity 123
 Intercorrelations Between Subtests and Scales 125
 WISC-R IQs and Stratification Variables 126
 Factor Analysis 127
 Administering the WISC-R 131
 Short Forms of the WISC-R 136
 Choosing Between the WISC-R and the WPPSI and
 Between the WISC-R and the WAIS-R 139
 Administering the WISC-R (and WPPSI and WAIS-R)
 to Handicapped Children 140
 Assets of the WISC-R 140
 Limitations of the WISC-R 142
 Concluding Comment on the WISC-R 143
 Summary 143

■ **Chapter 7**

WISC-R Subtests 146

Information 147
 Similarities 148
 Arithmetic 149
 Vocabulary 151
 Comprehension 152
 Digit Span 154
 Picture Completion 156
 Picture Arrangement 157
 Block Design 158
 Object Assembly 160
 Coding 161
 Mazes 162
 Summary 163

■ **Chapter 8**

Interpreting the WISC-R 165

Profile Analysis 166
 A Successive Level Approach to Test
 Interpretation 171
 Comparisons Between WISC-R Verbal and Performance
 Scales That Can Guide Interpretations 172
 Comparisons Between WISC-R Factor Scores That Can

Guide Interpretations 173
 Comparisons Between WISC-R Subtests That Can
 Guide Interpretations 174
 Analysis of Three Wechsler Subtests from a Piagetian
 Perspective 179
 Estimated Percentile Ranks and Test-Age Equivalents
 for Raw Scores 180
 Illustrations of Qualitative Analysis on the
 WISC-R 180
 Comment on Interpreting the WISC-R 182
 Psychological Evaluation 182
 Test Your Skill 182
 Summary 189

■ **Chapter 9**

**Wechsler Preschool and Primary Scale of
 Intelligence (WPPSI)** 191

Standardization 192
 Deviation IQs, Scaled Scores, and Test-Age
 Equivalents 192
 Reliability 194
 Validity 195
 Intercorrelations Between Subtests and Scales 198
 WPPSI IQs and Stratification Variables 198
 Factor Analysis 200
 Administering the WPPSI 201
 WPPSI Subtests 204
 Interpreting the WPPSI 211
 Assets of the WPPSI 214
 Limitations of the WPPSI 214
 Psychological Evaluation 215
 Test Your Skill 215
 Summary 215

■ **Chapter 10**

**Wechsler Adult Intelligence Scale—
 Revised (WAIS-R)** 219

Standardization 220
 Deviation IQs and Scaled Scores 220
 Reliability 220
 Validity 223
 Intercorrelations Between Subtests and Scales 225
 WAIS-R IQs and Stratification Variables 227
 Factor Analysis 227
 Administering the WAIS-R 230
 WAIS-R Short Forms 234
 WAIS-R Subtests 235
 Interpreting the WAIS-R 239
 Assets of the WAIS-R 241
 Limitations of the WAIS-R 241

Test Your Skill 242
 Summary 242

■ **Chapter 11**
Stanford-Binet Intelligence Scale: Fourth Edition 245

1937 and 1960 Stanford-Binet Intelligence Scales 246
 Introduction to the SB: FE 250
 Standardization 250
 Composite Scores, Standard Age Scores, and Test-Age Equivalents 250
 Reliability 251
 Validity 252
 Intercorrelations Between Subtests and Between Subtests and the Composite Score 253
 SB: FE Composite Scores and Stratification Variables 253
 Factor Analysis 255
 Administering the SB: FE 258
 SB: FE Subtests 261
 Interpreting the SB: FE 275
 A Successive Level Approach to Test Interpretation 278
 Comparisons Between Factor Scores That Can Guide Interpretations 279
 Comparisons Between Subtests That Can Guide Interpretations 281
 Additional Suggestions for Using and Interpreting the SB: FE 288
 Assets of the SB: FE 288
 Limitations of the SB: FE 289
 Concluding Comments on the SB: FE 290
 Summary 290

■ **Chapter 12**
Assessment of Intelligence and Infant Development with Specialized Measures 294

McCarthy Scales of Children's Abilities 295
 Kaufman Assessment Battery for Children 300
 Detroit Tests of Learning Aptitude—2 303
 Detroit Tests of Learning Aptitude—P 305
 Extended Merrill-Palmer Scale 306
 Slosson Intelligence Test 308
 Raven's Progressive Matrices 308
 Goodenough-Harris Drawing Test 310
 Leiter International Performance Scale 313
 Pictorial Test of Intelligence 314
 Columbia Mental Maturity Scale 315
 Blind Learning Aptitude Test 316

Hiskey-Nebraska Test of Learning Aptitude 316
 Piagetian Tests 317
 Bayley Scales of Infant Development 317
 Other Infant Assessment Measures 321
 Psychological Evaluation 322
 Summary 326

■ **Chapter 13**
Assessment of Academic Achievement and Special Abilities 328

Observational Guidelines and Administrative Suggestions for Giving Tests of Academic Achievement and Special Abilities 329
 Wide Range Achievement Test—Revised 331
 Peabody Individual Achievement Test 332
 Kaufman Test of Educational Achievement 333
 Basic Achievement Skills Individual Screener 334
 Woodcock-Johnson Psycho-Educational Battery 335
 New Sucher-Allred Reading Placement Inventory 338
 Classroom Reading Inventory 339
 KeyMath Diagnostic Arithmetic Test 340
 Sequential Assessment of Mathematics Inventories 341
 Boehm Test of Basic Concepts—Revised 342
 Bracken Basic Concept Scale 344
 Illinois Test of Psycholinguistic Abilities 345
 Test of Auditory Comprehension of Language—Revised 347
 Peabody Picture Vocabulary Test—Revised 348
 Denver Developmental Screening Test—Revised 351
 System of Multicultural Pluralistic Assessment 352
 Informal Assessment of Divergent Thinking 354
 Comment on Tests of Achievement and Special Abilities 356
 Summary 357

■ **Chapter 14**
Assessment of Visual-Motor Perception, Auditory Perception, and Motor Proficiency 359

General Guidelines for Administering and Interpreting Visual-Motor Tests 360
 Bender Visual Motor Gestalt Test 361
 Developmental Test of Visual-Motor Integration 368
 Auditory Discrimination Test 369
 Lindamood Auditory Conceptualization Test 370
 Goldman-Fristoe-Woodcock Test of Auditory Discrimination 371
 Bruininks-Oseretsky Test of Motor Proficiency 372

Comment on Tests of Visual-Motor Perception,
Auditory Perception, and Motor Proficiency 373
Summary 373

■ **Chapter 15** **Assessment of Adaptive Behavior and Behavior Problems** **375**

Introduction to Assessment of Adaptive Behavior and Behavior Problems 376
AAMD Adaptive Behavior Scale 378
AAMD Adaptive Behavior Scale—School Edition 381
Adaptive Behavior Inventory for Children 382
Vineland Adaptive Behavior Scales 383
Scales of Independent Behavior 385
Battelle Developmental Inventory 387
T.M.R. School Competency Scales 388
Balthazar Scales of Adaptive Behavior 390
Wisconsin Behavior Rating Scale 391
Examples of Behavioral Checklists 392
Comment on Adaptive Behavior Scales and Behavioral Checklists 395
Summary 395

■ **Chapter 16** **Assessment of Behavior by Interview Methods** **400**

The Clinical Assessment Interview vs. a Conversation 401
The Clinical Assessment Interview vs. the Nonclinical Interview 401
Advantages and Disadvantages of the Interview 402
The Interview as an Exchange of Information 402
Interviewing Skills 402
Interviewing Strategies 404
Overview of Various Types of Interviews 413
Initial Interview: General Considerations 415
The Initial Interview with Children 416
The Initial Interview with Parents 429
The Initial Interview with Teachers 443
The Initial Interview with the Family (or Teacher/Child) Together 446
Closing the Initial Interview 448
Evaluating the Interview 450
Second Interviews 451
The Post-Assessment Interview with Children 451
The Post-Assessment Interview with Parents 451
Structured Clinical Interviews 458
Cross-Ethnic, Cross-Cultural, and Cross-Class Interviewing 461
Other Considerations Related to Interviewing 463

Reliability and Validity of the Interview 463
Confidentiality of the Interview Material and Assessment Findings 465
The Clinical Assessment Interview vs. the Psychotherapeutic Interview 465
Evaluating Your Interview Techniques 466
Korchin's Overview of the Assessment Interview 467
Summary 469

■ **Chapter 17** **Assessment of Behavior by Observational Methods** **472**

Using Observational Methods 473
Applicability of Observational Methods 474
Designing an Observational Assessment 475
Observational Recording Methods 475
Observational Coding Systems 498
Recording Method and Coding System Combined 502
Guidelines for Designing an Observational Assessment 502
Reliability of Behavioral Observations: General Considerations 504
Procedures for Assessing Reliability 510
Validity of Behavioral Observations 518
Procedures for Reducing Errors in Observation 519
Cautions on the Use of Observations 522
Reporting Behavioral Observations 523
Psychological Evaluation 526
Summary 527

■ **Chapter 18** **The Assessment Process** **531**

General Assessment Considerations 532
Steps in the Assessment Process 532
Assessment in Schools 540
Assessment of Speech and Language 544
Assessment of Visual-Motor Ability 549
Learning Potential Assessment 549
Classification and Labeling 551
The DSM-III-R and Clinical and School Psychology 552
Comment on the Assessment Process 559
Summary 559

■ **Chapter 19** **Assessment of Ethnic Minority Children** **563**

Introduction 564
Arguments Against the Use of Intelligence Tests in Assessing Ethnic Minority Children 566

Arguments for the Use of Intelligence Tests in Assessing Ethnic Minority Children	572	Neuropsychological Evaluation	689
General Considerations in Ethnic Minority Testing	573	Lateralization of Cognitive, Perceptual, and Motor Activities	689
Subcultural Considerations	579	Aphasia in Children	692
Recommendations for Assessing Ethnic Minority Children	590	Prognosis for Brain-Damaged Children	693
Comment on Assessment of Ethnic Minority Children	591	Aspects of a Neuropsychological Assessment	695
Psychological Evaluation	592	The Clinical History	695
Summary	592	Behavioral Observations	698
 		Neuropsychological Test Batteries for Children	700
■ Chapter 20		Wechsler Scales as Part of a Neuropsychological Test Battery	704
Assessment of Learning Disabilities, Attention-Deficit Hyperactivity Disorder, Conduct Disorder, Pervasive Developmental Disorders, and Sensory Impairments	597	Other Procedures Useful in the Assessment of Brain Damage in Children	707
Learning Disabilities: An Overview	598	Evaluating Assessment Results	714
Reading Disability	602	Developing Intervention Procedures for Brain-Damaged Children	716
Assessment of Learning Disabilities	606	Report Writing	716
Attention-Deficit Hyperactivity Disorder: An Overview	617	Psychological Evaluation	719
Assessment of Attention-Deficit Hyperactivity Disorder	625	Summary	719
Conduct Disorder: An Overview	626	 	
Assessment of Conduct Disorder	626	■ Chapter 23	
Nonspecific Behavior Disorders: An Overview	627	Report Writing	725
Assessment of Nonspecific Behavior Disorders	628	Suggested Report Outline	726
Pervasive Developmental Disorders: An Overview	628	Organizing the Assessment Findings	732
Assessment of Pervasive Developmental Disorders	632	Deciding What Material to Include	733
Assessment of Visually Impaired Children	636	Making Generalizations	734
Assessment of Hearing-Impaired Children	639	Conveying the Degree of Certainty of the Statements	734
Summary	641	Using Illustrations to Support Inferences and Conclusions	735
 		Anchoring the Report to the Intelligence Level	735
■ Chapter 21		Reporting and Interpreting Test Results	736
Assessment of Mental Retardation and Giftedness	646	Interpreting IQ Classifications	736
Assessment of Mentally Retarded Children	647	Interpreting Deviation IQs and Scaled Scores	736
Assessment of Gifted Children	661	Interpreting Subtest Scores	737
Summary	683	Interpreting Differences Between Standard Scores	737
 		Interpreting Variability	738
■ Chapter 22		Interpreting Extrapolated Scores	738
Assessment of Brain Damage	686	Making Diagnoses	738
What Is Brain Damage?	687	Communicating Effectively	739
Comparison of Neurological and Neuropsychological Approaches	688	Eliminating Biased Wording	745
Neurological Examination	688	Writing a Concise Report	745
		Attending to the Technical Aspects of Report Writing	746
		Developing Strategies to Improve Writing Style	747
		Problems with Reports	752
		Concluding Comments on Report Writing	758
		Test Your Skill	760
		Summary	760

Chapter 24 **Issues in Consultation** **763**

Ethical Standards of Psychologists	764	Appendix A	Answers to Test-Your-Skill Exercises	801
Consultation in the Schools	764	Appendix B	Publishers of Tests Reviewed	811
Public Law 94-142: The Education for All Handicapped Children Act of 1975	767	Appendix C	Miscellaneous Tables	812
The Family Educational Rights and Privacy Act of 1974	777	Appendix D	Modified Instructions for Administering the WISC-R and WISC-III Performance Scale Subtests to Deaf Children	896
Public Law 99-457: The Education of the Handicapped Act Amendments of 1986	777	Appendix E	Observation Coding Systems	900
Assessment Procedures and Special Education on Trial	778	Appendix F	Highlights of Assessment Measures	912
Court Interpretations of PL 94-142 and Related Legal Decisions	780	References		931
Consultation with Parents	781	Appendix G	Wechsler Preschool and Primary Scale of Intelligence—Revised (WPPSI-R)	976
Consultation in Pediatric Medical Settings	784	Appendix H	Tables for the WPPSI-R	1011
Consultation in Courts and in Correctional Settings	788	Appendix I	Wechsler Intelligence Scale for Children—Third Edition (WISC-III): Description	1030
Challenges of Being an Expert Witness	789	Appendix J	WISC-III Subtests	1079
Use of Computers in Psychological Assessment	790	Appendix K	Interpreting the WISC-III	1105
Concluding Comment	793	Appendix L	Tables for the WISC-III (and other Wechsler Scales)	1135
Summary	793	Appendix M	Modified Instructions for Administering the WISC-III Symbol Search Subtest to Deaf Children	1178
		Name Index		1181
		Subject Index		1193
