

TECHNICAL FORUM

SOLIDIFICATION AND PROPERTIES OF CAST ALLOYS

1. PREFACE	5
I. Ohnaka, CIATF-President	
2. TECHNICAL FORUM OPENING	6
L. Kozlov, CIATF-Vice President	
3. INTRODUCTION	7
B.C. Liu (Moderator)	
4. Fundamentals of Solidification of Iron-base Alloys and Composites	8
D.M. Stefanescu (USA)	
5. Role of Rare Earth Elements on Solidification of Cast Alloys	28
B.C. Liu (CN)	
6. Computer Simulation of Microstructure Formation	49
M. Rappaz (CH)	
7. Progress in the Theory and Practice of Compacted Graphite Iron	56
Milan Lampic (D)	
8. Thin Section Ductile Iron Castings	75
Klaus Hornung (CH)	
9. Vision 2000: Aluminium Casting Technology	84
Allen D. Ackerman (USA)	
10. The Mechanical Properties of Non-ferrous Castings	104
J. Campbell (UK)	
11. Applications of Metal Matrix Composites to Automotive Parts	114
Yoshiaki Kajikawa (JP)	

CONCLUSION
