

Prof. Dr. med. Ulrich Schultz-Ehrenburg, Berlin
Prof. Dr. Vladimir Blazek, Aachen (Eds.)

Advances in vascular imaging and photo- plethysmography

**Proceedings of the Sixth
International Symposium
CNVD '95 June 16-18, 1995
Linköping, Sweden**

Reihe **20**: Rechnerunterstützte
Verfahren

Nr. **221**

Contents

E. W. Gaelings, W. Rütten, V. Blažek Computer modeling of growth and hemodynamics of vascular networks	1
W. Rütten, E. Gaelings, V. Blažek Investigation of the dependency between blood content and optical reflection of tissue	9
U. Haberland, G. Lindemann, S. Yibing, V. Blažek Fabrication and characterization of highly scattering tissue phantoms	17
P. D. Line, E. G. Salerud, K. Kvernebo Computer simulation of lower limb postocclusive hyperaemia	25
M. Lindén, K. Wårdell, M. Arildsson, G. Nilsson Imaging of peripheral blood flow	33
S. Bornmyr, A. Mårtensson, P. Wollmer Skin blood flow evaluation	39
T. L. Smith, L. A. Koman, William deAraujo, M. B. Holden Effects of weight bearing on cutaneous perfusion in the feet	41
C. L. Asker, E. G. Salerud Computer assisted capillary microscopy: theory and clinical applications	45
K. Münch, W. Vilser, J. Strobel Automatical computer-aided evaluation of retinal vessel diameters	51
I. Senff, W. Vilser, K. Münch, J. Strobel Reproducibility in automatic diameter measurement of retinal branch vessels in dye-free fundus video sequences for follow-up observations	61

L. A. Koman, D. S. Ruch, T. L. Smith, B. P. Smith, M. B. Holden	
Arterial reconstruction in the ischemic and wrist: Effects on microvascular physiology	71
O. Such, V. Blažek, M. Zavelberg	
The Octopuls - a measurement system for realtime discrete in-vivo spectroscopy and functional perfusion studies by multiwavelength photoplethysmography	77
J. Spáčil, O. Taraba	
The assessment of arterial circulation in diabetic patients by photoplethysmography	85
G. Gallenkemper, E. Rabe, H.W. Kreysel	
Main source of lower limb drainage - stretching of the calf muscles by dorsal extension at the ankle-joint. Argumentation by photoplethysmographic means.	89
J. Spáčil, R. Češka, J. Šobra , J. Petrášek, O. Taraba	
Beneficial effects of hypolipidemic therapy on the common carotid artery in patients with familial hyperlipoproteinemia	97
H. J. Schmitt, V. Blažek, U. Haberland, W. Rütten	
Tunable solid state lasers for optical tomography	101
M. Mukunda Rao, V. Blažek, H. J. Schmitt	
Real-time detection of brain events using optical sensors: Preliminary results	111
