

Contents

Preface vii

| | | |
|-----------|--|-----|
| CHAPTER 1 | Introduction | 1 |
| CHAPTER 2 | Fundamental Concepts in Quantitative Analysis | 5 |
| CHAPTER 3 | The Treatment of Analytical Data | 35 |
| CHAPTER 4 | Chemical Equilibria | 85 |
| | <i>Part 1</i> General Fundamentals | 85 |
| | <i>Part 2</i> Acid-Base Equilibria | 88 |
| | <i>Part 3</i> Precipitation Equilibria | 136 |
| | <i>Part 4</i> Complexation Equilibria | 161 |
| | <i>Part 5</i> Oxidation-Reduction Equilibria | 170 |
| CHAPTER 5 | General Titration Equations and Theory of Titration Curves | 209 |
| CHAPTER 6 | Neutralization Titrations | 248 |
| CHAPTER 7 | Precipitation Titrations | 311 |
| CHAPTER 8 | Complexation Titrations | 327 |
| CHAPTER 9 | Oxidation-Reduction Titrations | 350 |

| | | |
|------------|--|-----|
| CHAPTER 10 | Acid-Base Titrations in Nonaqueous Solvents | 416 |
| CHAPTER 11 | Theory and Procedures of Gravimetric Analysis | 429 |
| CHAPTER 12 | Electrochemical Methods of Analysis | 461 |
| CHAPTER 13 | Absorptiometry and Absorptiometric Methods of Analysis | 581 |
| CHAPTER 14 | Methods of Separation | 609 |
| CHAPTER 15 | Laboratory Experiments | 628 |
| APPENDIX A | Relative Atomic Weights | 660 |
| APPENDIX B | Formula Weights | 662 |
| APPENDIX C | Dissociation Constants for Weak Acids | 664 |
| APPENDIX D | Dissociation Constants for Weak Bases | 665 |
| APPENDIX E | Solubility Product Constants | 666 |
| APPENDIX F | Stepwise Formation (Stability) Constants of Complexes | 667 |
| APPENDIX G | Dissociation Constants for Metallochromic Indicators | 669 |
| APPENDIX H | Formation (Stability) Constants for Metallochromic Indicators | 670 |
| APPENDIX I | Standard Reduction Potentials and Some Formal Reduction Potentials at 25°C | 671 |
| APPENDIX J | Logarithms of Numbers | 674 |
| | <i>Index</i> | 677 |
